# DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

## RAMCO INSTITUTE OF TECHNOLOGY

North Venganallur Village, Rajapalayam-626117.

Virudhunagar District, Tamilnadu

### Vision

- Excellence in Computer Science and Engineering by offering quality technical education catering to research and development.

### Mission

- Equip the department with modern infrastructure for high quality education and carrying out research in emerging technologies in Computer Science and Engineering.
- Expose the students, faculty and staff to a globally competitive learning experience.
- Motivate students to realize the responsibility of being professionally competent computer technocrats to serve the society by inculcating Ethical and Environmental aspects.

### About The Department

- The Computer Science and Engineering department started in the year of April 2013 with a vision to become a Centre of Excellence by making the students to compete and adapt to the changing pace of the industries. The Department strives with an outlined vision in producing socially responsible and employable engineers. It has a team of well qualified and highly experienced faculty members and technical staff who deliver their skills to the students through 360° teaching-learning environment which includes deployment of Moodle, Video Tutorials from NPTEL, Spoken Tutorial which are all streamlined with NMEICT. Some of the bright students are pursuing MITx courses for enhanced learning. The faculty members impart knowledge through curriculum based formal education and industry focused informal education which enhances the aptitude and reasoning skills of the students to make them readily employable. The Department has modern, well equipped and updated infrastructure facilities to achieve the target of making students readily employable. The Computer Centers provide Central Computing facility across 950+ nodes which are backboneed by IBM 8 Blade Servers and Juniper Networks. Nodes have communication outlet with a speed of 230 Mbps dedicated leased line facility which can be accessed in both wired and Wi-Fi environment. The department procured all latest software including Oracle 11g, Rational Rose, Microsoft Open Value Subscription through Microsoft Campus agreement to enable the students to develop their practical skills.

# DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

## Program Educational Objectives (PEOs)

- Graduates will have successful career in IT and related industries or pursue higher education and research or evolve as entrepreneurs.
- Graduates will have the ability and attitude to adapt to emerging technological changes.
- Graduates will excel as socially committed engineers with high ethical values, leadership qualities and empathy for the needs of society

## Program Outcomes (POs)

### Engineering Graduates will be able to:

- **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
- **Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
- **Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
- **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
- **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
- **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

- **Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
- **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
- **Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
- **Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- **Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
- **Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

## Program Specific Outcomes (PSOs)

### After successful completion of programme, the students should be able to

- Excel in software development including mobile technologies to solve complex computation task with soft skills
- Apply appreciable knowledge of IOT, Cloud computing and Cyber security to develop reliable IT solutions
- Exhibit proficiency in Artificial Intelligence and Big Data Analytics for providing solutions to real world problems in Industry and Research establishments.

# BLOCKCHAIN

BY  
M APARNA II CSE

Blockchain was invented by a person using the name **Satoshi Nakamoto** in 2008 to serve as the public transaction ledger of the **cryptocurrency bitcoin**. The identity of Satoshi Nakamoto is unknown. The invention of the blockchain for bitcoin made it the first digital currency to solve the double-spending problem without the need of a trusted authority or central server.

## STRUCTURE

Using a **peer-to-peer** network and a distributed timestamping server. They are authenticated by mass collaboration powered by collective self-interests. Blocks hold batches of valid transactions that are hashed and encoded into a Merkle tree. Each block includes the cryptographic hash of the prior block in the blockchain, linking the two. The linked blocks form a chain. Sometimes separate blocks can be produced concurrently. By storing data across its peer-to-peer network, the blockchain eliminates a number of risks that come with data being held centrally.

The decentralized blockchain may use ad-hoc message passing and distributed networking.

The *block time* is the average time it takes for the network to generate one extra block in the blockchain.

A *hard fork* is a rule change such that the software validating according to the old rules

**Consortium blockchain** is one that possesses no access restriction, meaning that absolutely anyone with an internet connection can become a participant of a public blockchain.

More specifically, anyone in the world is able to read data that is included on the blockchain, and anyone in the world is allowed to execute transactions on a public blockchain. Consortium blockchains differ to their public counterpart in that they are permissioned, thus, not just anyone with an internet connection could gain access to a consortium blockchain. These types of blockchains could also be described as being semi-decentralized.

## TYPES

In **Private Blockchain**, edit permissions are kept centralized to one organization. Read permissions may be public or restricted to varying degrees. It is mostly used in database management.

There uses are internal to a single company, and so the companies will not want the data to be accessible to the public by setting up groups and participants who can verify transactions internally.

**Public Blockchain** is openly This gives anyone the right to participate in the process that decides which blocks get added to the chain as well as the current shape and size of the Blockchain. Anyone can perform transactions on the network.

## PASSWORD ----> BIOMETRIC

M.B. SRI DHARSHINI

ICSE

Web authentication (known as web authn is shorthand) is the default standard for websites and services that don't use any password for users sign ins. The way they do this is by supporting certain Biometric devices or USB security keys such as Yubico. As many know, it is already supported in Android, Chrome OS, Windows 10.

Now the world wide web consortium and the FIDO alliance have Officially certified the web authentication format, giving it the final go to be adopted by websites at large. Besides external hard ware such as smart phones, tablets or smart watches

Since there are no passwords involved, you are less likely to be hacked remotely, though losing access to the key can lock you out. and etc are used not to be hacked by anything. So atlast the google has decided to bring some typical for the security. That like one is nothing another than finger print.

## 540 million facebook user records found on unprotected amazon servers

Exposed datasets do not directly come from facebook they were collected and unsecurely stored online by third party fb app developers.

Researches at upguard revealed that two datasets one from Mexican media company called cultura colectiva and At the pool (fb-integrated app) both left publicly accessible on the internet.

More than 146 gb of data collected by Cultura Collectiva contain over 540 million fb user records, including comments, likes, reaction, account names, fb user id and more.

At the pool app contain information about users' friends, likes, groups and checked-in location, also names, plain text passwords and email address for 22,000 people.

Both datasets were stored in unsecured Amazon S3 buckets

# IS IT POSSIBLE TO DIGITIZE HUMAN CONSCIOUSNESS

BY: S.YESHWANTHINI II CSE

Dmitry Itskov predicts that in the year 2045, humans will be able to back themselves up to the cloud. Yep, he believes you'll be able to create a digital version of your human consciousness, stored in a synthetic brain and an artificial host.

Itskov plans to live forever — and he plans to take all of us along for the ages, as holograms. His project, called the 2045 Initiative, is named for the year he predicts he'll complete the final milestone in digitizing human consciousness. While substrate-independent minds (mind-uploading) may be a new reality to the next generation, the human desire for immortality certainly isn't.

## WHO IS DMITRY ITSKOV

Russian entrepreneur, billionaire and the founder of *New Media Stars*, a web-based media company. He has made a reported £1bn from his Moscow-based news publishing company.

Itskov is best known for being the founder of the 2045 Initiative, which aims to achieve cybernetic immortality by the year 2045.

Itskov started his foundation in 2011.

Itskov said, in a 2016 BBC *Horizon* TV documentary, that the "ultimate goal of [his] plan is to transfer someone's personality into the new artificial carrier".

Let's go back to Dimitry Itskov. Avatars can be developed, the structure of the human brain needs to be mapped, and neural structures, connections and their functions need to be deciphered. Electrical signals need to be translated into code, and hardware developed to run, well, the everlasting you.

Itskov's overall project to do just that is outlined in four phases. He spent millions on the plan, called the Avatar Project, which operates under the umbrella of the 2045 Initiative.

Also in 2012, Google launched the Google Brain project, an in-house research project focused on machine learning. (Machines will need to learn to effectively be you, after all.)

Look as far back as the third century B.C.E., when the ancient Chinese credited mercury as the secret to immortality. It's believed that the first Emperor of China, Qin Shi Huang, ingested high levels of mercury in pursuit of everlasting life. He died of mercury poisoning at age 39.

## Who are emoji decider?

CAN YOU HACK A DRONE?

Answer on  
PAGE  
NUMBER:

**M VENKATALASHMI III CSE**

With the technology advancements in signal processing domain, speech recognition has over- come many challenges like speaker and language variability, vocabulary size, noise etc. Speech Recognition differs from Speaker recognition as it detects the person behind the speech signal and is language independent.

## **AUTOMATIC SPEECH RECOGNITION FROM NEURAL SIGNALS**

Automatic Speech Recognition is a technology that allows human beings to use their voices to speak with a computer interface in a way that, resembles normal human conversation. It allows users of information systems to speak entries rather than punching numbers on a keypad. The ASR system can be applied to various applications like conversational IVR's, Dictations, Air Traffic Control, Automated Car, Biomedical Applications, etc.

The Neural networks were able to find patterns between two relatively defined sets of data: brain activity and external speech functions (such as spoken words or mouth movements).

But those external functions aren't present when someone merely imagines speech, and, without that data to use for training, it's unclear whether neural networks would ever be able to translate brain activity into computer-generated speech. Interfaces based on imagined speech would enable fast and natural communication without the need for audible speech and would give a voice to otherwise mute people. This focused review analyzes the potential of different brain imaging techniques to recognize speech from neural signals by applying

Automatic Speech Recognition technology. Modalities based on metabolic processes, such as functional Near Infrared Spectroscopy and functional Magnetic Resonance Imaging, are less suited for Automatic Speech Recognition from neural signals due to low temporal resolution but are very useful for the investigation of the underlying neural mechanisms involved in speech processes.

- This technique involves training neural networks to associate patterns of brain activity with human speech.
- Several research teams have managed to get neural networks to "speak" intelligible words.
- Although similar technology might someday help disabled people regain the power to speak, decoding imagined speech is still far off.

## KEY CONCEPT 1. Brain-computer Interfaces (BCIs)

A Brain-Computer Interface is a system which sends messages or commands to a computer without using the brain's normal output pathways of peripheral nerves and muscles.

## KEY CONCEPT 2. Automatic Speech Recognition (ASR)

Automatic Speech Recognition is a technology that enables the recognition of spoken language into a textual representation by computers.

Measurement of electrophysiological signals from the brain can be carried out both invasively or non-invasively. Electrodes can either measure ensembles of neurons firing in synchrony, which is done by MEG, EEG, and ECoG, or needle electrodes can be used to measure single action potentials (spikes) from individual neurons.

Broadband gamma power is extracted for a phrase of ECoG data. The most likely word sequence is then decoded by combining the knowledge of ECoG phone models, dictionary and language model.

**Microarrays** provide high resolution information of very small brain areas with a size of few square millimeters.

**Electroencephalography (EEG)** measures electric potentials of large ensembles of neurons firing at the same time by placing electrodes on the scalp.

**Electrocorticography (ECoG)** measures electrical potentials directly on the brain surface. ECoG grids are normally used in the process of epilepsy surgery and are not originally intended for neuroscientific studies or BCIs. It provides signals unfiltered by scalp and skin.

The *Brain-to-text* systems demonstrates that leveraging advanced technology from non-adjacent areas can drastically increase decoding performance and enable new paradigms.

The speech decoding in *Brain-to-text* in particular is that private thoughts could be read and thereby freedom of thought not be guaranteed any longer. In *Brain-to-text* activations associated with the production of speech are decoded, from planning to articulate speech prior to voice onset, to control of facial muscles, to processing of heard sounds. Thought processes or internal voice, while being formulated in words as well, do not make use of areas associated with the movement of articulatory muscles. So even if neural prosthesis based on imagined speech processes become a reality, there is still a large distinction between thought processes and the process of imagining oneself to speak.

# CAREER GUIDANCE

## GATE QUESTION

ASHOK MANI IV CSE

GATE-CS-2015

1) Which of the following is not true about User Datagram Protocol in transport layer?

(A) Works well in unidirectional communication, suitable for broadcast information.

(B) It does three way handshake before sending datagrams

(C) It provides datagrams, suitable for modeling other protocols such as in IP tunneling or Remote Procedure Call and the Network File System

(D) The lack of retransmission delays makes it suitable for real-time applications

GATE-CS-2015

2) Routers forward a packet using forwarding table entries. The network address of incoming packet may match multiple entries. How routers resolve this?

(A) Forward it to the router whose entry matches with the longest prefix of incoming packet

(B) Forward the packet to all routers whose network addresses match.

(C) Discard the packet

(D) Forward it to the router whose entry matches with the longest suffix of incoming packet

GATE-CS-2015

3) Consider the situation in which the disk read/write head is currently located at track 45 (of tracks 0-255) and moving in the positive direction. Assume that the following track requests have been made in this order: 40, 67, 11, 240, 87. What is the order in which optimized C-SCAN would service these requests and what is the total seek distance?

(A) 600 (B) 810 (C) 505 (D) 550

GATE-CS-2015

4) Let swap() be a function that swaps two elements using their addresses. Consider the following C function.

```
void fun(int arr[], int n){
    for (int i = 0; i < n; i+=2){
        if (i>0 && arr[i-1] > arr[i])
            swap(&arr[i], &arr[i-1]);
        if (i<n-1 && arr[i] < arr[i+1])
            swap(&arr[i], &arr[i+1]);
    }
}
```

If an array {10, 20, 30, 40, 50, 60, 70, 80} is passed to the function, the array is changed to

- (A) {20, 10, 40, 30, 60, 50, 80, 70}
- (B) {10, 30, 20, 40, 60, 50, 80, 70}
- (C) {10, 20, 30, 40, 50, 60, 70, 80}
- (D) {80, 70, 60, 50, 40, 30, 20, 10}

GATE-CS-2016

5) Select the correct asymptotic complexity of an algorithm with runtime  $T(n, n)$  where

$T(x, c) = \Theta(x)$  for  $c \leq 2$ ,  
 $T(c, y) = \Theta(y)$  for  $c \leq 2$ , and  
 $T(x, y) = \Theta(x+y) + T(x/2, y/2)$

- (A)  $\Theta(n \log n)$
- (B)  $\Theta(n^2)$
- (C)  $\Theta(n)$
- (D)  $\Theta(n^2 \log n)$

## ANSWER + EXPLANATION

(1)

UDP is a connectionless protocol, so it doesn't establish connection. Three-way handshake is done by transport layer.

A- UDP is a stateless protocol thus, useful in servers which answer small queries of large number of clients as it doesn't need to store the state for each client. Thus, UDP is suitable for broadcast and unidirectional communication.

B- Three-way handshake is performed by TCP before establishing the connection in which it first sends SYN packet then SYN-ACK is received, then ACK packet is sent. UDP is a connectionless protocol and thus, doesn't perform 3-way handshake.

C- IP tunneling is a communication channel between two different kind of networks. It is used to connect islands of IPv6 across the IPv4 Internet by encapsulating the packets in the frame format of IPv4. Remote procedure call is when a program causes a subroutine to run in another address space. This address space can be on server. It is a request response protocol and thus, UDP is suitable for it. Datagrams are also useful as UDP is a packet stream protocol.

D- TCP retransmits the erroneous packets from source to destination while UDP discards them.

Answer: (B)

(2)

The network addresses of different entries may overlap in forwarding table. Routers forward the incoming packet to the router which has the longest prefix matching with the incoming packet.

ANSWER (A)

(4)

The function sorts the array in waveform. See sort an array in wave form for more details.

ANSWER (A)

(5)

The recurrence is  
 $T(x, y) = \Theta(x+y) + T(x/2, y/2)$   
 It can be written as below.

$$T(x, y) = \Theta(x+y) + \Theta[(x+y)/2] + \Theta[(x+y)/4] + \Theta[(x+y)/8] \dots T(x, y) = \Theta[(x+y) + (x+y)/2 + (x+y)/4 + (x+y)/8 \dots]$$

The above expression forms a geometric series with ratio as 2 and starting element as  $(x+y)/2$ .  $T(x, y)$  is upper bounded by  $\Theta(x+y)$  as sum of infinite series is  $2(x+y)$ . It is lower bounded by  $(x+y)$ .

ANSWER (C)

(3) ANSWER (C)

Circular scanning works just like the elevator to some extent. It begins its scan toward the nearest end and works its way all the way to the end of the system. Once it hits the bottom or top it jumps to the other end and moves in the same direction. Keep in mind that the huge jump doesn't count as a head movement.

0 11 40 45 67 87 89 240 255

$$\begin{aligned} \text{Total seek distance} &= (67-45) + (87-67) + (240-87) + (255-240) + (255-0) + (11-0) + (40-11) \\ &= 22 + 20 + 153 + 15 + 255 + 11 + 29 = 505 \end{aligned}$$

FACEBOOK NOW HIRING.

NO NEED TO APPLY.

WE ALREADY HAVE ALL YOUR DETAILS

## GATE-CS-2019

6) Given an array that represents elements of arithmetic progression in order. It is also given that one element is missing in the progression, the worst case time complexity to find the missing element efficiently is:

- (A)  $\Theta(n)$  (B)  $\Theta(n \log n)$  (C)  $\Theta(\log n)$  (D)  $\Theta(1)$

## GATE-CS-2016

7) Which of the following changes to typical Quick sort improves its performance on average and are generally done in practice.

- 1) Randomly picking up to make worst case less likely to occur.
- 2) Calling insertion sort for small sized arrays to reduce recursive calls.
- 3) QuickSort is tail recursive so tail call optimizations can be done.
- 4) A linear time median searching algorithm is used to pick the median, so that the worst case time reduces to  $O(n \log n)$

- (A) 1 and 2 (B) 2, 3, and 4 (C) 1, 2 and 3 (D) 2, 3 and 4

## GATE-CS-2015

8) For  $\Sigma = \{a, b\}$ , let us consider the regular language

$$L = \{x \mid x = a^2 + 3k \text{ or } x = b^{10} + 12k, k \geq 0\}$$

Which one of the following can be a pumping length (the constant guaranteed by the pumping lemma) for  $L$ ?

- (A) 3  
(B) 5  
(C) 9  
(D) 24

## GATE-CS-2015

9) Let  $T$  be a full binary tree with 8 leaves. (A full binary tree has every level full.) Suppose two leaves  $a$  and  $b$  of  $T$  are chosen uniformly and independently at random. The expected value of the distance between  $a$  and  $b$  in  $T$  (i.e., the number of edges in the unique path between  $a$  and  $b$ ) is (rounded off to 2 decimal places)

Note: This was Numerical Type question.

- (A) 5.71 to 5.73 (B) 4.85 to 4.86 (C) 2.71 to 2.73 (D) 4.24 to 4.26

## GATE-CS-2018

10) An array of 25 distinct elements is to be sorted using quicksort. Assume that the pivot element is chosen uniformly at random. The probability that the pivot element gets placed in the worst possible location in the first round of partitioning (rounded off to 2 decimal places) is

Note: This was Numerical Type question.

- (A) 0.08 (B) 0.0016 (C) 0.04 (D) 0.0008

## ANSWER + EXPLANATION

(6)

We can use Binary Search to find the missing element. See following link for details.

ANSWER(C)

(7)

The 4th optimization is generally not used, it reduces the worst case time complexity to  $O(n \log n)$ , but the hidden constants are very high.

ANSWER(C)

(8) ANSWER (D)

According to Pumping lemma, there must be repetition (DFA then it repeats some states, and regular grammar repeats its nonterminal in derivation.) for all acceptable strings.

Therefore, minimum Pumping Length should be 11, because string with length 10 (i.e.,  $w = b^{10}$ ) does not repeat anything, but string with length 11 (i.e.,  $w = b^{11}$ ) will repeat states.

Therefore, pumping length for given language should be greater than 10, which is 24.

(9)

Sum of distances from a particular leaf to the remaining 7 leaves is 34. The sum would remain the same for each leaf node. Therefore total sum of distance of all the leaf nodes =  $34 \times 8$ .

Two leaf nodes can be selected in  $8 \times 8 = 64$  ways.

Therefore, the expected value of the length between a and b in T,  
 $= (34 \times 8) / (8 \times 8) = 34 / 8 = 4.25$

ANSWER (D)

(10)

Given an array of 25 distinct elements, and pivot element is chosen uniformly randomly. So, there are only 2 worst case position in the pivot element is either first (or) last.

Therefore, required probability is  $= 2/25 = 0.08$

ANSWER (A)

#1

## FIRST ROUND

@RAMCO SYSTEMS

It was an online aptitude test. There were three sections which could be attended in any order. They were

QUANTS

VERBAL

DATA  
INTERRUPTIONI GOT THROUGH  
THIS ROUND

#2

## SECOND ROUND

It was a **video conferencing** round with the HR were present in their office. The HR is very cool and so we can easily explain to the questions. It was a very casual session but questions were **based on the projects and mini-projects** we had done previously and the most of the **questions on resume and SQL**, so clear in SQL basic concepts with example and the domain I was particularly interested in. They also asked about the products developed by the company and . Java based technical questions were also asked. (**Oops concepts**) ask some questions in resume like **paper presentation topics and completed online courses** so be clear in the resume

## QUESTIONS WERE

TELL  
ABOUT  
YOURSELF

- ALL OOPS CONCEPTS
- PROCEDURE IN SQL
- JOIN WITH EXMPLE (SELF JOIN)
- NORMALISATION

# INTERVIEW EXPERIENCE

@RAMCO SYSTEMS

R. PREETHA IV CSE

#1

## FIRST ROUND

It should be a sectional cutoff for 60 questions in 60mins.

1. Data interruption (5 questions)
2. Quants (20 questions)
3. Logical reasoning (15 questions)
4. Verbal (20 questions)

In Quants section most of the questions from **time speed, odd man out, time and work, ratios, problems on ages, geometry**. Don't spend too much time on any question and utilize properly to complete all sections within sixty minutes. Data interruption section consuming more time, because the passage was little bit brief. So I attend this section at last. Questions from verbal and reasoning were somewhat easy to answer. Most of the logical reasoning question for blood relation, directions, seating arrangements.

#2

## SECOND ROUND

It was Technical and HR Round and it was conducted through Video Conferencing. Two Panel Members were there while I was attending. More questions are about my projects and also my area of interest

- INTRODUCE YOURSELF
- ABOUT MY PROJECT
- ROLE OF YOUR PROJECT
- WHAT ARE THE QUERY TO BE USED
- HOW MANY TABLES TO BE USED
- NORMALISATION AND ITS TYPES
- WHAT IS TRANSACTION
- ABOUT YOUR PAPER PRESENTATION
- WHAT IS ISOLATION
- What are the modules (introduction to c#) in an online course? Can you explain any one module?

## SOME FUNNY GOOGLE TRICKS..

BY, S.YESHWANTHINI II CSE

### Askew

When you type Askew or Tilt on google, it tilts the search results page.

### Recursion

When you type this word on search, you will asked again that "did you mean RECURSION".

### Do A Barrel Roll

When you search for this keyword, the page will start rotating in Clockwise Direction.

### Google Space

Type this and see everything floating.

### Google Sphere

This may not work for some, however

### Google Heart

This one is quite lovely and mathematical. I just laughed when I saw this at first. To see a heart you need to search the given calculations on google search. It will do calculations and bring you a graph plotted in heart shape. Here's the code below, do some changes and check the results.

```
(sqrt(cos
(x))*cos
(400*x)+
sqrt(abs
(x))-0.4)*
(4-
x*x)^0.01
```

### Zerg Rush

This is a game which is quite interesting. When you type Zerg Rush on google, aliens zergs start coming to your result in the shape of '0'. All you have to do is just kill those and get as many points as you can. You can also share your points on G+.

### Binary

Type "Binary" on google search and check out. It will show the number of results as "About 0b1000101000010011010000 results". Quite odd.

### Atari Breakout

This one is really interesting and not known by many people. For this just type Atari Breakout on Google search and then click Image results. A game will start automatically.

### Gravity

This trick is one of the oldest and known by almost every individual who uses google. Just type Google Gravity and see what happens.

### One Does Not Walk into Mordor

This one is specially for Lord Of The Rings fans. For this just go to google maps and search as follows  
From= The Shire  
To= Mordor.

ENJOY!!

## TECHNICAL QUIZ

BY,  
S.YESHWANTHINI  
II CSE

1) Which protocol is used to receive E-MAIL ?

A) STMP B) POP3 C) FTP

2) World's first GST calculator was launched by which of the following company ?

(A) CASIO INDIA (B) ORPAT (C) CITIZEN

3) Google unveiled new Cloud Platform, to manage apps from anywhere. It was named as ?

A) AZURE B) ANTHOS C) MIDRU

4) World's first AI news anchor was unveiled by ?

A) KOREA B) CHINA C) JAPAN

5) Which company revealed the World's fastest 1TB microSD card at Mobile World Congress (MWC) 2019

A) SANDISK B) LEXAR C) CASIO

### ANSWERS

1) B 2) A 3) B 4) B 5) A

## SBI DESTROYS RANSOMWARE VIRUS

RANSOMWARE VIRUS TRIED TO ENTER INTO COMPUTER SYSTEM OF SBI.

IT COULD NOT SUCCEED AS SOMEONE TOLD IT, LUNCH KE BAAD AANA"

IT CAME BACK AFTER LUNCH TIME BUT GOT STUCK AGAIN AS SOMEONE SAID, YAHAN NAHI 14 NO. COUNTER PER JAEYE TRIED THIRD TIME ND LISTENED PEECHE ACCOUNT NUMBER AUR MOBILE NUMBER DAALO

FINALLY 4TH TIME .... AAJ TIME KHATAM, AB KAL AANA

When they ask you what antivirus you use in Linux...

The word Ubuntu comes from an African word meaning "I am because of you".

NOV 30 - COMPUTER SECURITY DAY

The first ever Internet Service Provider (ISP) was a company named CompuServe.

The domain name www.YouTube.com was registered 14th February 2005.

Christopher Sholes invented the QWERTY keyboard in 1868.

In June 1983, the Apple Lisa was released - the first commercial computer with a graphical user interface (GUI) and a mouse.

The man known as the Father of Information Theory, Claude Shannon, invented the digital circuit - the foundation of the magic that provides us all access to the Internet today - during his master's degree program, when he was just 21 years old.

The world's first camera took eight hours to snap a photo.

The very first Apple logo featured Sir Isaac Newton sitting underneath a tree, with an apple about to hit his head.

Android's logo isn't actually called Android. Google unofficially call him Bugdroid.

November 1985 saw the first release of Microsoft Windows; Windows 1.0, a 16-bit system.

In 1999, PayPal was voted as one of the top ten worst business ideas.

Amazon.com was previously known as Cadabra.com.

86% of people try to plug their USB devices upside down.

97% of people type in random words on Google, just to see if they spelled it right.

Nokia was founded in 1865 and its primary business was manufacturing paper. Nokia's first mobile phones were released in the 1980's.

# ENGLISH AND TAMIL POETRY MOMENT

life is beautiful

Yeah it's true!

When it's dawn, the day is born

Threat of dark runs far...

Warmth fills heart...!

We get to know what on earth we are for...

The race begins with what we've got...!

As its bright all seems clear...

Then comes the dusk where starts the fear...!

But we should know only in night...

The stars and moon shines bright...!

Only when you close your eyes...

Comes the dream to give you surprise...!

So, It's not about how bright or dark it is...

Just take the life as it is...!

Even when it makes you shed tears!!

Turn into a cloud make your tears spread rainbow. With  
your confidence as the Sun...!

## Microsoft has been working on Centaurus

Hoping to  
announce the  
device in the  
fall of 2019.

**Centaurus  
will be able  
to run x86  
apps.**

It is supposed to  
be the first of  
what Microsoft  
calls a dual-  
screen 2-in-1, a  
new device  
form factor for  
Windows 10  
that utilizes two  
screens for  
productivity,  
inking,  
and more.

## பொறியாளர்

அம்மாவின் கருவறையில் பிறந்து

அப்பாவின் தோளில் வளர்ந்து

அண்ணனின் பாசத்தில் விழுந்து

அக்காவின் நேசத்தில் மடிந்து

ஆசிரியர்களின் அறவணைப்பில் படித்து

நண்பர்களின் அன்புக்கு அடிபடிந்து

வாழ்வில் மென்மேலும் உயர்ந்து

உலகத்தில் நின்றேன் “பொறியாளராக”

இப்படிக்கு,

இரண்டாம் ஆண்டு பயிலும் மாணவி

ச. கௌசல்யா

## கல்லூரியில் இருந்து என் வாழ்க்கை

வாழ்க்கையில் முதல்முறை ஆசைப்பட்டேன்

விவசாயம் படிக்க வேண்டுமென்று ஆனால்,

என் ஆசை நிறைவேற்றவில்லை ஆகையால்,

வாழ்க்கையின்மேல் வந்தது கோபம்

ஏதோஒரு காரணத்தால் நுழைந்தேன்

நம் கல்லூரியின் வாயிலில்

மலைகளின் நடுவில் அமைந்திருக்கும்

எம்கல்லூரி எளிதானமுறையில் என்னைக் கவர்ந்தது

மனதில் இயற்கை எழில்களோடு

கல்லூரியின் வாழ்க்கைப்பயணத்தை தொடந்தேன்

ஏனோதானோ என்று கழிந்தது ஓராண்டு

இரண்டாம் ஆண்டின் முதல்பாகமும் அப்படித்தான்

எடுத்தேன் ஒரு உறுதிமொழி

வாழ்க்கையென்றால் இப்படித்தான் வாழவேண்டுமென்று

ஆகையால், ஆசைப்பட்டேன் இரண்டாம் முறையாக

எம்கல்லூரியின் \_\_\_\_\_ வரவேண்டுமென்று.

இப்படிக்கு.

இரண்டாம் ஆண்டு பயிலும் மாணவி

ச. கௌசல்யா

## Students achievements / Awards / Recognition received during the year (2018-2019)

- V.Pushpavanam Sabarish, II CSE won I Prize in National Techno-Cultural Management Festival "YOUTH YUVAFEST'18" at Kongu Engineering College during 27.12.2018 to 28.12.2018.
- B.Padmavathi, IV CSE won III prize in Tamil Mandram Speech Competition Topic on "No Voter to be left behind" at Raju's College RJPM on 10.01.2019.
- M.Janani, S.Sathya Pooja, N.Selva Nandhini, IV CSE won II prize in the event Code Scramble of GYAN MITRA'19 organized by Mapco Schlenk Engineering college, sivakasi during 08.02.19 to 09.02.19.
- Kata Bharat, III CSE won I Prize in the event "Paper Presentation on Intelligent Traffic Light System", A National Level Technical Symposium YUKTAHA 2K19 organized by PSG Institute of Technology & Applied Research, Coimbatore during 12.02.2019 to 13.02.2019.
- Nivetha V, Dhanya V, Keerthana U, Athsal Mahiba Joy I, Lavanyaa R, Nithyashree, III year CSE Won Cash Prize in National Science Day celebrations for the topic "ERP for Transport Management System" on 28.02.2018.
- Gokul Raja M(III Year CSE) Won II prize in National Science Day celebrations for the topic "Event Detection from Road Traffic Video using R-CNN" on 28.02.2018.
- Akshaya M, Balasaraswathi S, Harini S R, Jesima A S, Vasanthi M, Venkatalakshmi M Won III prize in National Science Day celebrations for the topic "India Vs Pollution" on 28.02.2018.
- Amirtha P, Srinithisivasankari K, Renugambal B, Sandhiya R, Niranjana Devi A, Selvakumari Won III prize in National Science Day celebrations for the topic "Bus Tracking Message Alert System for Students" on 28.02.2018.
- Sowmiya S, Darshini R won III Prize in National Science Day -Rangoli.
- Darshini R - won III Prize in National Science Day- Poster Design
- M.Pavithra, A.J.Vaishnavi Devi - I Prize in National Science Day- Math's Dumb charade
- S.Muthu Lakshmi, J.Ajitha - II Prize in National Science Day- Math's Dumb charade
- M.Sasi Rekha, A.Gayathri - III Prize in National Science Day- Math's Dumb charade
- S.Yeshwanthini, S.Krishnaveni won II Prize in National Science Day- Paper Presentation "Block Chain".
- S.Balasaraswathi, S.R.Harini won I Prize in in presented paper "Augmented Reality VS Virtual Reality" Conducted by Kalasalingam Institute of Technology on 07.03.2019.
- U.Keerthana (III CSE) won II Prize in in presented paper "Deep Learning" Conducted by Kalasalingam Institute of Technology on 07.03.2019.
- U.Keerthana, V.Dhanya, M.Akshaya, A.S.Jesima - III CSE won I Prize in the event Capture Flag conduct by Kalasalingam Institute of Technology on 07.03.2019.
- U.Keerthana, V.Dhanya, M.Akshaya, A.S.Jesima, S.R.Harini, S.Balasaraswathi, M.Vasanthi, V.Nivetha, M.Venkatalakshmi got Overall Champions "RIT" by Kalasalingam Institute of Technology on 07.03.2019.
- M.Suriya I CSE Participated in Inter college Technical Symposium ASPIRE'2K19 won I Prize in Pubg organized by Kalasalingam Institute of Technology, Srivilliputhur

# WORKSHOP

The Department of CSE organized Three Days "Workshop on Artificial Intelligence and Machine Learning" from 03.01.2019 to 05.01.2019 for final Year CSE Students. Mrs.M.Swarna Sudha and Ms.P.Jothi Thilaga gave a brief introduction about basics of Python and its concepts. Mrs.B.Vijayalakshmi discussed about the packages like numpy, pandas, matplotlib and scikit learn for machine learning. Dr.K.Karthikeyan explained the concepts of Linear Regression and Logistic Regression with examples. Finally, Mr.R.Balaji Ganesh gave brief overview about all the concepts of Machine learning and its scope.

The Department of CSE RIT-ED Cell in association with New Technology, Coimbatore jointly organized Smart Phone Service Training from 04.01.2019 to 05.01.2019. Mr.B.Krishanakumar and his team from New Technology, Coimbatore were the resource persons. They begin the session with the basics of smart phone and software. Later, they gave hands on practice in finding the mobile model, assembling and dis-assembling of mobiles and fault finding testing to the participants on the first day of session. In the second day of the session, trainers gave the training in dead mobile trouble shooting, IC replacement, touch panel replacement as hands on to the participants. More than 120 students of both internal and external participants got benefited.

Ms.V.Archuna, Alumni of CSE from Ramco systems, chennai was conducted Workshop on "Xamarin" on 19.01.2019.

One day workshop on  
"A Real -Time Coding"  
by Mr.S.Guruprakash,  
Founder CEO, Xobin  
recruitment teams and  
Educational Institutions  
for II year & III year  
CSE,ECE on 08.03.2019

A One day Seminar  
on "BUG BOUNTY  
HUNTING  
METHODOLOGY"

By Mr.P.DHAMOTHARAN,  
Lead Infrastructure Security Engineer,  
ICICI Bank, Mumbai for I & II Year CSE  
Students on 25.03.2019.

RIT Automation and Robotics Club in  
association with IIT Bombay

RAMCO INSTITUTE

Approved by AICTE, New Delhi  
An ISO 9001  
North Vengalloor Village

E-Yantra Lab  
setup initiative  
(ELSI) for All  
Department on  
14.03.2019.

e-Yantra

Embedded Systems &  
Robotics Lab

Supporting & For e-Yantra Lab Setup  
Initiative - IIT Bombay

Supporting & For e-Yantra Lab Setup  
Initiative - IIT Bombay

- Special Guest Lecture on 'Technology Innovation- the sixth wave' was conducted for all the students in RIT by Padma Shri Padma Bhushan Dr.A.Sivathanu Pillai,Former Chief Controller(R&D) and Former of BrahMos Aerospace on 18.01.2019.
- Guest Lecture on "Industry 4.0 and Learning to Learn" by Mr.R.Krishnamurthi Rao, Pals Champion, Mr.B.Prabhakar, Technical Director, Sri Ayyanar Spinning Mill for II, III, IV CSE was conducted on 30.01.2019.
- Video Conference Lecture on "Time Complexity and Classic Algorithm" by Dr. Jey Veerasamy, Director, Center for Computer Science Education Outreach, Teaching Faculty for II, III, IV CSE was conducted in 21.02.2019.
- Career Guidance Cell Seminar on "Dream Big, Work hard- Be a champion in life" by Rev.Ben Genard and his team from USA on 04.03.2019.

## INDUSTRIAL VISIT

I year CSE were visited Industrial Visit at Rajapalayam Mills Limited, Rajapalayam on 14.03.2019.

I Year CSE were visited Field Visit at Rajapalayam Water Storage and Ayyanar Kovil on 02.04.2019.

## VALUE ADDED COURSE

Five days Value Added Course on "SQL" was conducted by Mrs.M.Swarna Sudha, AP(SG)/CSE, Mrs.N.Nithya, AP/CSE, Ms.P.Jothi Thilaga, AP/CSE, Ms.S.Manjula, AP/CSE, Mr.K.Vignesh Saravanan, AP/CSE during 10.12.2018 to 14.12.2018 for III year ECE students.

One Day Creative Learning Programme On Computer Programming Tinker Cad, MIT Scratch was conducted for Students of Class IX, X, XI, XII in State Board/Matric/CBSE schools on 08-02-2019.

A Four day Value Added Courses on "Network Termination" by Mr.M.Gomathy Nayagam, Mrs.M.Swarna Sudha, Mr.S.NarayanaMoorthy, Mr.K.Muthu Kumar, Mr.S.Suresh Kumar and Mr.B.Siva Sundarji for II year CSE Students on 02.04.2019 to 06.04.2019.

A Four day Value Added Courses on "JAVA Programming" was conducted by Dr.K.Vijayalakshmi, HOD/CSE, Mrs.N.Nithya, Ms.P.Jothi Thilaga, Ms.S.Manjula, Mr.C.A.Yogaraja, Mr.K.Vignesh Saravanan during 03.04.2019 to 06.04.2019 for I EEE Students.

# STUDENT'S PARTICIPATION

- Seven Students & One Faculty from RIT participated in "A Three Days Residential Students Workshop" on Think Create Engineers at IIT Madras. Students lively participated in the Events and Doing a Problem Solving Projects in Central Workshop of IIT Madras during 19.12.2018 to 22.12.2018.
- A.Ariyanayagam, R.Dhanus Karthikeyan, Kata Bharat, S.Santhosh, III CSE & A.P.Nithin Jerish, P.Vignesh Kumar IV CSE underwent Industrial Visit at Ramco Cements during 30.01.2019 to 02.02.2019.
- M.Aparna, J. Madhushree, S.Krsihnaveni, II CSE presented paper on "Block Chain Technology & Bitcoins" on National Techno-Cultural Management Festival "YOUTH YUVAFEST'18, by Kongu Engineering College during 27.12.2018 to 28.12.2018.
- C.Karthika, S.Santhiya II CSE attended workshop on Python for machine learning on National Techno-Cultural Management Festival "YOUTH YUVAFEST'18, by Kongu Engineering College during 27.12.2018 to 28.12.2018.
- R.Dhanus Karthikeyan, R.Kondal Raj, P.Sriram, G.Sriram, R.Manikanda Prabhu, S.Rames Kriushanan, P.Gowtham raj, M.Ramganes, III CSE participated National Techno-Cultural Management Festival "YOUTH YUVAFEST'18 by Kongu Engineering College during 27.12.2018 to 28.12.2018.
- K.M.Divya Pandian, R.Siva Ranjini II CSE attended One day Workshop on Cloud Computing by Code Bind Technology, during 16.01.2019.
- M.Janani, S.Sathiya Pooja, N.Selva Nandhini, IV CSE participated in technical events & attended workshop on machine learning using python of GYAN MITRA'19 organized by Mepco Schlenk Engineering college, sivakasi during 08.02.19 to 09.02.2019.
- P.Sriram, R.Arun, III CSE attended workshop on Animation and visual effects using blender organized by Mepco Schlenk engineering college during 08.02.19 to 09.02.2019.
- S.Yeshwanthini, II CSE attended One day national level Workshop on troubleshooting network and various protocols with Wireshark organized by Sri Ramakrishna engineering college on 09.02.2019.
- A.Hari Haran, L.Pavan Sri Harisha, S.Dinesh Kumar, Kata Bharat III CSE participated workshop on Deep Learning in National Level Technical Symposium YUKTAHA 2K19 organized by PSG Institute of Technology & Applied Research, Coimbatore during 12.02.2019 to 13.02.2019.
- R.Manikanda Prabhu, S.Rames Krishnan, S.Jawaharlal Nehru, P.Selva thirukumaran III CSE attended One day Workshop on block chain & cyber security organized by S.A.Engineering College at Chennai during 15.02.2019.
- R.Manikanda Prabhu, S.Rames Krishnan, S.Jawaharlal Nehru, P.Selva thirukumaran III CSE participated Gaming, Connections, Mock Interview, Quiz in National Level Technical Symposium OZMENTA'19 organized by Velammal Engineering College, Chennai during 16.02.2019.

- Arun IV Year CSE participated in Virudhunagar District level Badminton Tournament - 2018 and **won III prize** at Virudhunagar Hindu Nadar's Senthikumara Nadar College on 23.12.2018 to 25.12.2018.
- M.Surya , M.Prabhu, K.Sathya Prakash, M.R.Shahith Akeel, ( II Year CSE) & S.Jawaharlal Nehru (III CSE) participated in League Tournament held at Tamilnadu Cements Ground , Alangulam on 03.03.2019.
- P.Selva Thirukumaran (III CSE) participated in 26th Thiru Karumuthu Thiagarajan Chettiar Memorial state Level Inter Engineering Men's Hockey Tournament on 09.03.2019 to 11.03.2019.

The following students Participated and Won Prizes in the 6th Sports Day Celebration at RIT, Rajapalayam on March 18.03.2019:

- M.Surya , II CSE won I Prize In 4 x 100Mts ( Relay) , 4 x 400Mts ( Relay) , 100 Mts , 200 Mts , Triple Jump & Long Jump.
- M.R.Shahith Akeel , II CSE won III Prize In Triple Jump.
- T.Anusuya , II Year CSE won III Prize In Disgus Throw.
- M.Radhika, III Year CSE won III Prize in 4 x 100Mts ( Relay) , 400 Mts.
- M.Akshaya, III Year CSE won I Prize in 4 x 100Mts ( Relay) , 400 Mts
- S.Jawaharlal Nehru , III Year CSE won II Prize in 4 x 100Mts ( Relay).

## INPLANT TRAINING

- K.M.Divya Pandian, R.Siva Ranjini, II CSE, underwent In-plant Training at Code Bind Technology, during 13.01.2019 to 17.01.2019.
- Jegatha C, Raga Priya K, Rajarajeswari P, Vasuki S II CSE, underwent In-plant Training at Rajapalayam Mills Ltd during 27.05.2019 to 31.05.2019.
- M.SasiRekha, R.Rathika, R.Gayathiri, M.Subashini, S.Gowsalya, M.Muthurani II CSE underwent In-plant Training at Code Bind Technology, during 28.05.2019 to 01.06.2019.

# PROJECT PRIZE WINNERS

ERP for Transport Management System" done by Nivetha V. Dhanya Keerthana U. Athsal Mahiba Joy I. Lavanyaa R. Nithyashree S V. III Year CSE guided by Mr.C.A.Yogaraja

"Event Detection from Road Traffic Video using R-CNN" done Gokul Raja M. IV Year CSE guided by Mr.R.Balaji Ganesh

"India Vs Pollution" done Akshaya M. Balasaraswathi S. Harini S R. Jesima A S Vasanthi M. Venkatalakshmi M. III Year CSE guided by Mr.R.Venkatesh

"Bus Tracking Message Alert System for Students" done Amirtha P. Srinithisivasankari K. Renugambal B. Sandhiya R.Niranjana Devi A. Selvakumari, III Year CSE guided by Dr.M.Kaliappan. Assoc.Prof/CSE.

## EVENT PRIZE WINNERS

- Darshini R, Sowmiya S, I Year CSE has won third prize in "Rangoli".
- Darshini R, I Year CSE has won third prize in "Poster Design".
- M.Pavithra, A.J.Vaishnavi Devi I Year CSE has won First prize in "Dumb charade".
- S.Muthu Lakshmi , J.Ajitha II Year CSE has won Second prize in "Dumb charade".
- M.Sasi Rekha , A.Gayathri II Year CSE has won Third prize in "Dumb charade".

MAKE BIG GOALS.

# STUDENT PRESENTATION

- M.Shrimalavika, G.Keerthana, III CSE presented paper on "Steganography" on National Level Technical Symposium SAMHITA'19, by Madras Institute of Technology, Chennai during 01.02.2019 to 02.02.2019.
- P.Nithyalakshmi, G.Manimala, Athsalmahiba joy, Shanmuga Valli, III CSE presented paper entitled "Cyber Security & Agri Advisor" and participated technical event in National Level Technical Symposium TECHTRIX 2K19 organized by PSR Engineering College, sivakasi on 08.02.2019.
- A.Hari Haran, L.Pavan Sri Harisha, S.Dinesh Kumar, Kata Bharat III CSE presented a paper entitled, Intelligent Traffic Light System , Data Security Using honey pot, Phishing Techniques in National Level Technical Symposium YUKTAHA 2K19 organized by PSG Institute of Technology & Applied Research , Coimbatore during 12.02.2019 to 13.02.2019.
- S.Yeshwanthini , S.Krishnaveni, J.Ajitha, V.Mariaaantony Rosy, II CSE presented paper on "Data Analytics , 5G Network" on Two Days national level technical symposium "NECSI'19" by National Engineering College, Kovilpatti during 01.03.2019.
- M.Pavithra, A.J.Vaishnavi Devi II CSE presented paper on Probability has won II Prize in National science day 28.02.2019.
- S.Yeshwanthini , S.Krishnaveni II CSE presented paper on Block Chain has won II Prize in National science day 28.02.2019.
- U.Keerthana III CSE presented paper on Deep Learning has won II Prize in One day National level technical symposium "CYBERTRON'19" organized by Kalasalingam Institute of Technology on 07.03.2019.
- V.Nivetha, V.Dhanya III CSE presented paper on Python in Gaming in One day National level technical symposium "CYBERTRON'19" organized by Kalasalingam Institute of Technology on 07.03.2019.
- S.R.Harini , S.Balasaraswathi III CSE presented paper on Augmented Reality VS virtual Reality has won I Prize in One day National level technical symposium "CYBERTRON'19" organized by Kalasalingam Institute of Technology on 07.03.2019.
- M.Vasanthi, M. Venkatalaskhmi III CSE presented paper on Cyber Security in One day National level technical symposium "CYBERTRON'19" organized by Kalasalingam Institute of Technology on 07.03.2019.
- A.S.Jesima , M.Akshaya III CSE presented paper on Devops in One day National level technical symposium "CYBERTRON'19" organized by Kalasalingam Institute of Technology on 07.03.2019.
- B.Ashwini, S.Sowmiya – I Year CSE presented paper "Ladkis Buddy against women harassment" (Cash Prize : 1000) Organized by Kongu Institute of technology, Erode on 11.03.2019 to 12.03.2019.
- S.Hemalatha, M.Karthiya, P.Sabna Devi, – I Year CSE presented "Teleportation" in A National Level Technical Symposium on INFOQUEST'19 organized by Government college of Engineering (GCT) , Coimbatore on 12.03.2019 to 13.03.2019.
- G.Rahini , A.Vaishnavi , V.Vishnu Prabha, – I Year CSE presented "Internet of Things" in A National Level Technical Symposium on INFOQUEST'19 organized by Government college of Engineering (GCT) , Coimbatore on 12.03.2019 to 13.03.2019.

## FACULTY PRESENTATION

- Mrs.B.Vijayalakshmi, AP(SG)/CSE, presented paper entitled on "Techniques for Traffic flow prediction - a survey" on 3rd International Conference on inventive systems and control (ICISC 2019) by JCT College of Engineering and technology at pichanur, Coimbatore during 10.01.2019 to 11.01.2019.
- S.Manjula, AP/CSE, P.Jothi Thilaga, AP/CSE, presented paper entitled on "Sentiment Recognition From Facial Expression Using Machine Learning" by St.Joseph's Institute of Technology, Chennai on 04-05-2019
- Mrs.M.Swarna Sudha, AP(SG)/CSE, presented paper entitled on "MaliciousWebpage Detection Using Machine Learning" by St.Joseph's Institute of Technology, Chennai on 04-05-2019.

## FACULTY INPLANT TRAINING

@ Ramco System, Chennai during 27.05.2019 to 31.05.2019.

Mrs.V.Anusuya, AP(SG)/CSE, M.Gomathy Nayagam, AP(SG)/CSE, Ms.S.Manjula, AP/CSE, P.Jothi Thilaga, AP/CSE attended Inplant Training

Dr.K.Vijayalakshmi, HOD/CSE,  
Mrs.M.Swarna Sudha, AP(SG)/CSE,  
Mr.C.A.Yogaraja, AP/CSE, attended  
Inplant Training.

@ Rajapalayam Mills  
Ltd  
during 27.05.2019 to  
31.05.2019.

### **Courses Attended by Faculty (Workshop/FDP/ Seminar/STTP)**

- Ms.P.Jothi Thilaga, AP/CSE attended Two weeks FDP on "Design and analysis of algorithms" conducted by Anna University, Chennai during 22.11.2018 to 05.12.2018.
- Mr.R.Balaji Ganesh, AP(SG)/CSE attended "FDP at Teaching Learning Centre, IIT Madras during 3.12.2018 to 05.12.2018.
- Dr.K.Vijayalakshmi,HOD/CSE,Dr.M.Kaliappan, Assoc.Prof/CSE, visited Innovative Center in Amirtha, BIT, Kongu, Kumaraguru during 03.12.2018 to 05.12.2018.
- Dr.K.Kaliappan, Assoc.Prof/CSE acted as observer on Central Teacher Eligibility Test at Kendriya Vidyalaya No-1, PT Rajan Road Narimedu, Madurai on 09.12.2018.
- Mrs.B.Vijayalakshmi, AP(SG)/CSE attended in one week AICTE – ISTE Sponsored Induction/refresher programme on "Technical Tour on Cloud Computing and Big Data Analytics-Challenges and Solutions" conducted by Velammal College of Engineering and Technology at Madurai during 10.12.2018 to 15.12.2018
- Mr.M.Gomathy Nayagam, AP(SG)/CSE, Mr.A.S.Prabharan, AP(SG)/CSE, National Level FDP on "Demystifying Machine Learning (DML 2018)" organized by Amrita Vishwa Vidyapeetham, Amritapuri during 10.12.2018 to 14.12.2018
- Mr.C.A.Yogaraja, AP/CSE attended Two weeks Anna University Sponsored FDP "Design and Analysis of Alogrithms" organized by Anna University, Regional Campus, Coimbatore during 10.12.2018 to 21.12.2018.

Dr.M.Kaliappan, Assoc.Prof/CSE, attended one day FDP on "Building Energy Analysis and its associated challenges" organised by PALS, IIT-Madras Research Park, Chennai on 20.12.2018

Our Lab technicians, Mr.K.Muthukumar, Mr.S.Sureshkumar participated in Five Day Workshop on "Photoshop Design" from May 27 th - 31 st 2019 organized by School of Information Technology and Engineering, Department of Multimedia, Vellore Institute of Technology, Vellore.

FDP

- Mr.M.Kaliappan, Assoc.Prof/CSE, Mr.R.Venkatesh, AP(SG)/CSE, Mr.R.Balaji Ganesh, AP(SG)/CSE visited Ramco Cements during 30.01.2019 to 02.02.2019.
- Mr.K.Vignesh Saravanan, AP/CSE attended AICTE-QIP sponsored short term course on **"High Performance computing for science and engineering"** organized by Thiagarajar College of Engineering during 04.02.2019 to 09.02.2019.
- Mr.M.Gomathy Nayagam, AP(SG)/CSE, attended AICTE-QIP sponsored short term course on **"Data science for internet of things"** organized by Thiagarajar College of Engineering during 04.02.2019 to 09.02.2019.
- Mrs.V.Anusuya, AP(SG)/CSE, Ms.S.Manjula AP/CSE attended one day FDP on **"AWS Cloud Masters 2019"** organized by AAA College, Sivakasi during 25.03.2019.
- Dr.M.Kaliappan, ASP/CSE attended FDP on **Outcome Based Education** organized by Thiagarajar College of Engineering during 01.04.2019 to 03.04.2019.
- Mr.R.Balaji Ganesh, AP(SG)/CSE, Mr.D.Lakshmanan, AP(SG)/CSE attended FDTP on **"Machine Learning in Image and Computer Vision Applications"** organized by E & ICT Academy, NIT Warangal during 06.05.2019 to 11.05.2019.

Dr.M.Kaliappan, Assoc.Prof/CSE attended Ten days Global Initiative on Academic Network(GIAN) course on "Physics and biology inspired optimization, machine learning, data mining techniques and their applications in big-data, medical, science and engineering disciplines" at IIT Bhubaneswar during 13.05.2019 to 22.05.2019.

Mr.M.Gomathy Nayagam, AP(SG)/CSE, attended Hands-on Training on "Design of Robots Its Applications (DeRoA-19)" organized by Mepco Schlenk Engineering College, Sivakasi during 16.05.2019 to 18.05.2019.

Mrs.M.Swarna Sudha, AP(SG)/CSE, Ms.S.Manjula, AP/CSE attended Five days FDP on **"Machine Learning with Python (A complete hands on approach)"** organized by New Horizon college of engineering during 07.01.2019 to 11.01.2019

- S.Vimal, M.Kaliappan, A.Suresh, P.Subbulakshmi, S.Kumar, D.Kumar, "Development of Cloud Integrated Internet of Things Based Intruder Detection System", Journal of Computational and Theoretical Nanoscience, vol.15, pp.3565-3570, (2018)
- Dr.Nattar Kannan, Dr.S.SivaSubramanian, Dr.M.Kaliappan, S.Vimal, Dr.A.Suresh and P.Subbulakshmi, "Artificial Intelligence based attack mitigation Using Stochastic Game Theory Modelling with WQLA in Cognitive Radio Networks", Journal of Web of Engineering, vol.17, no.6, pp. 3599-3618, (2018).
- Karthika.S, Anantha Jothi.M, Kavipriya.M and A.S.Prabaharan, "An Automated Student Attendance Registering System using Face Recognition", International Journal For Technological Research In Engineering Vol.6, no.7, pp.5135-5140, March (2019). ISSN (Online): 2347 - 4718
- Mr.K.Vignesh Saravanan, Ms.J.Bharathy and Dr.K.Vijayalakshmi, "Multi-Constraint Optimal Skyline Product Combination Under Price Promotion Using TLE Algorithm", International Journal of Recent Trends in Engineering and Research, pp.438 - 448, March (2019). ISSN (Online) : 2455 - 1457
- Gokila.K, Jananie.K.R, Madhu Bala.C and Gomathy Nayagam.M, "Content Based Video Classification Using SVM", International Journal of Recent Trends in Engineering and Research, pp.468 - 477, March (2019). ISSN (Online) : 2455 - 1457

- Devi Mahalakshmi and K.Vijayalakshmi, "Improved Copy move forgery detection approach-A Comparative study", Journal of Electrical Engineering, Vol.19, no.1, pp.477-488, (2019)

#### CONFERENCE PUBLICATION

- Mrs.B.Vijayalakshmi and Dr.K.Ramar, "Techniques for Traffic Flow Prediction – A Survey", Third International Conference on Inventive Systems and Control (ICISC 2019), January 2019, JCT College of Engineering and Technology, Coimbatore.
- Monisha.M.K, Syed Arifa.M, Vanitha Devi.P and Lakshmanan.D, "Black Spot Notification on Mobile Phones of Travellers", International Conference on New

Scientific Creations in Engineering and Technology (ICNSCET-19), March 2019, Nadar Saraswathi College of Engineering and Technology, Theni.

- Anusuya.V, Dharunya.K, Gowsalya.R, Divyasankari.R, and Ramya.R, "Self-Check Library Management System using RFID", International Conference on New Scientific Creations in Engineering and Technology (ICNSCET-19), March 2019, Nadar Saraswathi College of Engineering and Technology, Theni.
- K.Gokila, K.R.Jananie, C.Madhu Bala, M.Gomathy Nayagam, "Content Based Video Classification Using SVM", International Conference on New Scientific Creations in Engineering and Technology (ICNSCET-19), March 2019, Nadar Saraswathi College of Engineering and Technology, Theni.
- B.Vijayalakshmi, M.Janani, M.Selvananthini and S.Sathiya Pooja, "Traffic Flow Prediction Using Deep Learning", International Conference on Recent Trends in Engineering Technology and Management, March 2019, Coimbatore Institute of Engineering and Technology, Coimbatore.
- B.Vijayalakshmi, K.M.Kiruthiga, A.Monisha, H.Shifana and M.Vasanthi, "Crowd Counting Using Deep Metric Learning", 7th National Conference on Convergent Communication Technologies and Telemedicine Networking, March 2019, Vinayaka Mission's Kirupanandha Variyar Engineering College, Salem.
- M.Gomathy Nayagam, S.Anadhapriya, V.Jency and R.Preetha, "Automatic Traffic Rule Violator Detection System", International Conference on Recent Developments in Engineering (ICRDE'19), March 2019, Dhaanish Ahmed Institute of Technology, Coimbatore.
- Dr.M.Kalippan, Mr.R.Venkatesh, N.Arun, P.Nithin Jerish and P.Vignesh Kumar, "Trend Analysis of Energy Consumption Using Machine Learning Techniques", International Conference on Recent Developments in Engineering (ICRDE'19), March 2019, Dhaanish Ahmed Institute of Technology, Coimbatore.
- M.Swarna Sudha, R.Mahesh Kumar, K.Vasanth Karuppasamy and S.VigneshMani, "Malicious Webpage Detection Using Machine Learning", International Conference on Recent Developments in Engineering (ICRDE'19), March 2019, Dhaanish Ahmed Institute of Technology, Coimbatore.
- M.Swarna Sudha, C.M.Ananthi, M.Kanaga Priya, V.Padmavathi and V.Poornam, "Rumour Detection in Social Networks", International Conference on Recent Developments in Engineering (ICRDE'19), March 2019, Dhaanish Ahmed Institute of Technology, Coimbatore.
- Mrs.M.Swarna Sudha, R.Mahesh Kumar, K.Vasanth Karuppasamy, and S.Vigneshmani, "Malicious Web Page Detection using Machine Learning", 4th International Conference on Recent Trends in Engineering and Technology (ICRTET 2019), May 2019, St. Joseph's Institute of Technology, Chennai.
- Ms.S.Manjula, Ms.P.Jothi Thilaga and Dr.K.Vijayalakshmi, "Sentiment Recognition from Facial Expression using Machine Learning", 4th International Conference on Recent Trends in Engineering and Technology (ICRTET 2019), May 2019, St. Joseph's Institute of Technology, Chennai.

WEEKLY

# CLUSTRA ACTIVITIES 2018 - 2019 (EVEN SEMESTER)

## Kahoot Technical Quiz Event

22.12.18 @ CC1

15

PARTICIPATED

A.AISHWARYA II  
YR CSE

ORGANISED BY

N.Nawin Nanda , S.Srikanth- IV CSE,  
Hema Athisesan Ela, Santhosh.S-  
III CSE,  
P.Rajareshwari- II CSE.

## Technical Connection

29.12.18 @ CC1

12

PARTICIPATED

R.Sriram Karthi &  
P.Gowtham  
II CSE

ORGANISED  
BY

B.Padmavathi , N.Arun  
IV CSE,  
A.Ariya Nayagam,  
S.R.Harini  
III CSE,  
M.Surya & M. Prabhu  
II CSE.

## TECHNICAL DUMB CHARADES

5th JANUARY 2018 @ CC1

12 PARTICIPANTS

R.Dhanush  
Karthikeyan  
A.Ariyanayagam  
III CSE

ORGANISED BY

P.Vanitha Devi ,  
M.MadhuSree  
IV CSE  
Hema Athisesan Ela,  
S.Balasaraswathi  
III CSE  
V.Pushpavanam  
Sabarish,  
S.Yeshwanthini  
II CSE

## Technical Debate

12.01.19  
@ CC IV

6 PARTICIPANTS

S.Karthika &  
K.Dharunya  
IV CSE

Does Technology  
isolate us?

Two teams are participated.  
Each team has three members.  
One team talk about technology is useful and which does not isolate once we use it properly whereas other team opposing their points.

## Technical Paper Presentation

09.02.19  
@ CSE  
SEMINAR  
HALL

14 Participated

{ Jointly  
organised  
by RIT  
CLUSTRA &  
CSI }

## Photo Gallery

A PLACE WHERE PEBBLES ARE POLISHED  
AND DIAMONDS ARE DIMMED

## RAMCO INSTITUTE OF TECHNOLOGY
