Suggestions provided by the DAC members a summary.

- A departmental action plan for every academic year needs to be prepared.
- Best practises and the contributions of departments to institution development need to be identified.
- Students require more emphasis on skill training in their core domain, as well as industry interaction.
- Faculty competence (research skills), external interaction with higher-level institutions and universities (national and international), and industry.
- Asked to try out for the IEEE student chapter.
- The DAC members suggested checking the correlation of department vision and mission with the college vision and mission.
- DAC members insisted on providing the GATE exam attended and cleared student list with marks and the Tessolve training attended and cleared student list. Members of the DAC proposed providing quantitative data for all activities carried out.
- The DAC members suggested incorporating the identification of curriculum gaps with PO attainment.
- The complexity level of the question paper is to be evaluated by the domain coordinator and the department head when evaluating the quality of the question paper.
- A committee may be formed to identify slow learners and bright students, and improvement should be measured.
- Encourage bright students to participate in hackathons, idea generation, product development activities, etc.,
- To form a committee, including academic and industry experts to classify the best and average projects.
- Encourage students to do projects in MOU-signed industries and publish papers in indexed conferences.
- Asked to prioritise target setting, CO and PO mapping, and to include the percentages of all pass students.
- The DAC members suggested incorporating the IEEE society into our college and making the students and faculty members become members of IEEE.
- Each event organised by a professional society should have a participation count.
- Members of the DAC proposed expanding outside participation (other states).
- Suggested faculties to take online courses through NPTEL.
- The DAC members suggested constituting a committee with academic members, domain-specific members, and a common convener for academic audit. The suggestions of the audit should be displayed on the website.
