

RAMCO INSTITUTE OF TECHNOLOGY

Approved by AICTE, New Delhi & Affiliated to Anna University

Accredited by NAAC & An ISO 9001: 2015 Certified Institution

NBA Accredited UG Programs: CSE, EEE, ECE and MECH

Department of Information Technology

Academic Year 2023 – 2024 (Even Semester)

Degree, Semester & Branch : IV Semester B.Tech IT
Course Code & Title : CS3451 & Introduction to Operating Systems
Name of the Faculty member : Mr. Balaganesh M V, AP/IT

Innovative Practice Description

- **Unit / Topic:** Unit I / Unit I – Pros and Cons of Windows and Mac OS
- **Course Outcome:** CO1
- **Topic Learning Outcome:** TLO 3
- **Activity Chosen:** One Minute Paper
- **Justification:**

The “One-Minute paper” is a relatively less time-consuming and effective way of getting feedback from the students. The students, who are reluctant and shy to express their doubts or clarification on a topic, reflect their difficulty in the paper. This activity also enables the faculty member to provide clarification and additional guidance to students on the topic which has been reflected as a difficulty or unclear topic in The “One-Minute paper”.

- **Time Allotted for the Activity:** 1 Minute
- **Details of the Implementation:**

The students were asked to name the topics that they have understood clearly in Unit I and the topics that they have doubts for further clarification and revision. The faculty revises the particular topics based on the suggestion given by the students, in the One-Minute paper. All the students were asked to write about their understandings gone through this given topic. The students wrote a few points from the topic up to their understanding level. After evaluating the one-minute paper written, the understanding level of the students was identified. The students doubt were clarified at the end of the activity.

- **CO – PO / PSO mapping specific to this event:**

CO	PO1	PO2	PO9	PO10	PSO1
CO1	2	2	2	1	2

(1 – Low 2 – Moderate 3 – High)

• **PO / PSO mapped:**

Innovative practice	PO1	PO2	PO9	PO10	PSO1
	2	2	2	1	2
Justification for correlation	Apply mathematical knowledge to find computational solutions to various problems	To analyze complex engineering problems	To work as an individual	To Communicate effectively on complex engineering activities	Will be able to solve complex computation task

• **Images / Screenshot of the practice:**

• **Reflective Critique:**

❖ **Feedback of practice from students and other stakeholders:**

- Students felt the activity is very interesting.
- Students felt that they could be more thorough with the concepts by doing this activity.

❖ **Benefit of the practice:**

- Minute papers are an effective way of involving all students in class simultaneously. It ensures equal participation of each and every class member, including anyone who may be too shy or fearful to participate orally.
- It can be easily tracked whether the students have understood the concept clearly or not.

❖ ***Challenges faced in implementation:***

- Very few students are not confident in their understanding of a few concepts.
- Time allotted for this activity is not sufficient.
