Innovative Practice Description

- **Theme/ Topic:** Theme E – The documentaries in India
- **Course Outcome:** CO5
- **Topic Learning Outcome:** TLO20
- **Activity Chosen:** Learning By Teaching
- **Justification:**

The main objective of the learning-by-teaching activity was to improve active learning and consolidate students' knowledge by insist them to teach assigned topics to their peers. In prior the students were informed about the topic and the presentation before 5 days, so they would have time to prepare. The topic documentaries in India covers various documentaries, so it was interesting for the students to select their own interested documentaries and present it to their peers.

- **Time Allotted for the Activity:** 35 Minutes
- **Details of the Implementation:**
 - At starting of the class, the instructor asked the students about their willingness to teach the topic “The documentaries in India”.
 - Mr. Atheesh A and Mr. Ajay V show their interest in taking the class.
 - They were allowed to share their knowledge about the topic “The documentaries in India” with their peers as shown in Figure 1 & 2.
 - They take certain real world Heros documentaries and explained it clearly.
 - Some of the listener students were already aware of this concept and interact during the session, by answering for the questions asked by the presenter.
 - After the presentations, a question-and-answer session was held to encourage active participation and clarify any doubts.

- This allowed students to engage in discussions and exchange additional insights related to the topic.
- Finally, the instructor summarized the content.

- **Reflective Critique:**

- ❖ ***Feedback of practice from students and other stakeholders:***

- Students felt that through this type of active learning, they can explore themselves more.
 - Presenting the seminar helped to understand the topic more deeply and they explained it to others.
 - Students found that the activity also enhanced their understanding, communication skills and confidence.

- ❖ ***Benefit of the practice:***

- By involving students in teaching and discussions, the seminar promotes active learning, making the educational experience more dynamic and interactive.
 - Students learn at their own pace.
 - The seminar provides an opportunity for students to receive feedback from both peers and instructors, helping them identify strengths and areas for improvement.

- ❖ ***Challenges faced in implementation:***

- Keeping all students engaged throughout the seminar can be challenging, especially if presentations are lengthy or not interactive.
 - Some students not interact due to their shyness.
