

Department of Information Technology

Academic Year 2024 – 2025(Even Semester)

Degree, Semester & Branch: VI Semester B.Tech. IT

Course Code & Title: CCW332 & Digital Marketing

Name of the Faculty member (s): Dr. K. Palraj, ASP / IT

Innovative Practice Description

- **Unit / Topic:** Unit 3 / Mobile Marketing, Mobile Inventory/channels
- **Course Outcome:** CO3
- **Topic Learning Outcome:** TL018, 3d.
- **Activity Chosen:** Flipped Class Room
- **Justification:**
 - The flipped classroom is ideal for teaching Mobile Marketing and Mobile Inventory/Channels because it allows students to absorb fast-changing foundational content at their own pace before class, while in-person time is used for hands-on strategy development and application-driven nature of the mobile marketing industry.
- **Time Allotted for the Activity:** 15 Minutes
- **Details of the Implementation:**
 - Share short videos and readings explaining key concepts like mobile ad formats, inventory types, and metrics.
 - On the day of activity ask the students to form a group. Each students discussed the topic of Mobile Marketing, Mobile Inventory/channels with example with their group.
 - Ms. Swathi S and Ms. Aarthi G team explained the concept of Mobile Marketing, Mobile Inventory/channels in Figure 1.

• **CO – PO / PSO mapping:**

CO	PO1	PO2	PO3	PO4	PO5	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
CO3	3	2	2	2	3	2	2	3	3	2	2	3

(1 – Low 2 – Moderate 3 – High)

• **PO / PSO mapped:**

Innovative practice	PO1	PO2	PO3	PO4	PO5	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3
	3	2	2	2	3	2	2	3	3	2	2	3
Justification for correlation	The students learn how to craft personalized, persuasive messages, and use email as a tool to foster relationships with customers and achieve marketing goals layer.	The students develop analytical skills by studying metrics, testing subject lines, and optimizing campaigns through testing to improve effectiveness and solve performance-related problems.	The students learn how to design visually appealing email templates, craft compelling subject lines, and use segmentation strategies to send targeted messages that resonate with different customer segments	The students engage in research to understand and market trends, email metrics, and customer behavior to create effective campaigns	The students gain hands-on experience with these tools to create and optimize email marketing efforts effectively	The students develop teamwork skills as they collaborate on creating and executing successful email campaigns, with the opportunity to lead projects or teams within the campaign process	The students enhance their written communication skills by crafting clear, concise, and persuasive emails that align with the target audience's needs and desires.	The students develop project management skills by creating email marketing strategies, setting goals, managing timelines, and tracking performance metrics to ensure the success of each campaign.	The students are encouraged to learn about new email marketing trends, emerging tools, and industry updates to remain competitive in the field of digital marketing.	The students use data analytics and algorithms in email marketing to optimize targeting, personalize content, and improve engagement	The students leverage emerging technologies such as automation tools and AI to enhance email campaign efficiency and predict customer behavior	The students apply industry best practices and open-source platforms in email marketing to design scalable, effective, and high-quality campaigns

Figure 1: Discussion on the topic by the team of Swathi S and Aarthi G

- **Reflective Critique:**

- ***Feedback of practice from students and other stakeholders:***

- Students found class sessions more interactive and dynamic.
 - Students can learn better by discussing mobile ad strategies with peers.
 - Students can able to exposure to real-world mobile campaigns helped in practical learning.
 - This activity helps the students to do live demos of ad platforms like Google Ads and Meta Business Suite helped me understand backend workflows.

- ***Benefit of the practice:***

- Students had control over when and how they engaged with pre-class material.
 - Students can enable self-paced learning, particularly useful for students with varied learning speeds or external commitments.
 - Students spent less time on passive lecturing, shifting the focus to active learning and strategy formulation.

- ❖ ***Challenges faced in implementation:***

- Some students did not consistently complete the pre-class videos or readings, leading to uneven participation and reduced effectiveness of in-class activities.
 - Some students struggled with tools used in mobile marketing analysis (e.g., Google Ads dashboards, analytics platforms)
 - The activity was planned for 15 Minutes, but it takes 25 minutes because the students hesitate to come dais.
