

RAMCO INSTITUTE OF TECHNOLOGY
Department of Mechanical Engineering

Academic Year: 2022- 2023 (Odd Semester)

Innovative Practices- Group Challenge- Simple Circuit with Tinker CAD

Degree, Semester& Branch: VII Semester B.E Mechanical Engineering

Course Code & Title: ME8099 Robotics

Name of the Faculty member: Mr. S. Valai Ganesh

Date: 07.09.2022

Question:

1. Add ultrasonic sensor in front of the gripper. If any object/signal received means all fingers will contract and extend happens in parallel actions. Develop a program in Tinkercad using Arduino, Ultrasonic sensor, Servo motors etc.

Instructions:

- (a) Maximum 3 members per team
 - (b) Team Formation should be mentioned prior via Whats App group
 - (c) Team who completed and submitted first with all those conditions will be honored
 - (d) Last date for submission is 15 September 2022 at 11.59 pm. We will discuss the answers in 16 September 2022 Class hour
- [CO2, L3]

CO2: The students will be able to illustrate the different types of robot drive systems as well as robot end effectors.

L3: Apply

Instructions

Student work

Robot Programming in TinkerCAD- Human Gripper

Dear Students,

Herewith I have attached the Presentation file for your reference. Go through it.

The question is as follows:

Add ultrasonic sensor in front of the gripper. If any object/signal received means all fingers will contract and extend happens in parallel actions. Develop a program in Tinkercad using Arduino, Ultrasonic sensor, Servo motors etc.

If you need any clarifications, please let me know

Instructions:

- (a) Maximum 3 members per team
- (b) Team Formation should be mentioned prior via Whats App group
- (c) Team who completed and submitted first with all those conditions will be honored
- (d) Last date for submission is 15 September 2022 at 11.59 pm. We will discuss the answers in 16 September 2022 Class
