

Department of Mechanical Engineering
Academic Year 2023 – 2024 (Odd Semester)

Degree, Semester & Branch: V Semester B.E Mechanical Engineering

Course Code & Title : CME362 Energy Conservation in Industries

Name of Faculty member : Mr.R.Arun Kumar, AP(SG)/Mech

Innovative Practice Description

- **Unit / Topic** : Unit II / Electricity tariff structures
- **Course Outcome** : CO2
- **Topic Learning Outcome:** TLO 4
- **Activity Chosen** : Assignment submission
- **Justification:**
 - Students were asked to submit an assignment on EB tariff calculation for their respective homes based on the TANGEDCO tariff structure. This gives the students a clarity on the energy consumption pattern of their respective home and helps them to calculate the tariff and may intuit them to save energy.
- **Time Allotted for the Activity:** A week / Individually
- **Details of the Implementation:**
 1. Students were given an exposure on EB tariff calculator of TANGEDCO
 2. They were explained with the tariff pattern for each slabs and type of consumer
 3. Students were asked to create an online account in TANGEDCO. The procedure for the same was explained with my account along with the various tab options on the portal.
 4. Students have to record the energy consumption pattern and calculate the EB bill for their respective home.
 5. An assignment on the same has to be submitted.
- **CO – PO / PSO mapping for the activity:**

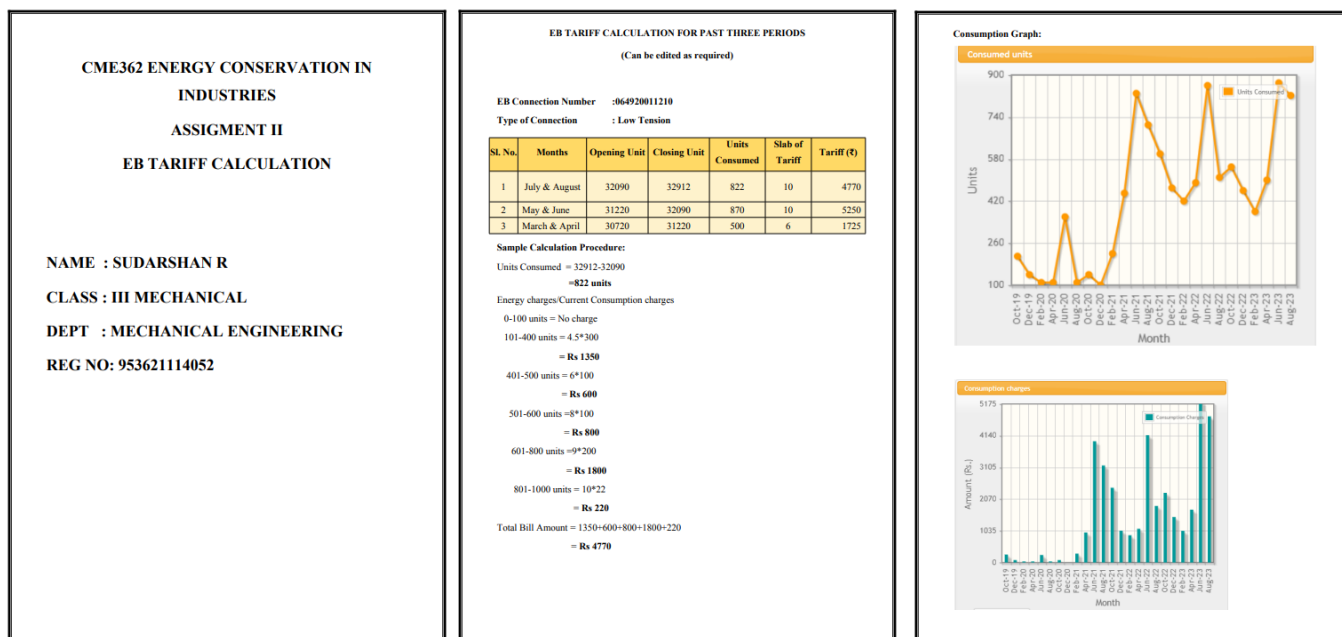

CO	PO8	PO9	PO10	PO12
CO2	3	2	3	3

(2 – Moderate 3 – High)

Note: Justification in Course plan

- Images / Screenshot of the practice:

- Reflective Critique:

- ❖ *Feedback of practice from students and other stakeholders:*

Based on the feedback collected from the students, they expressed that the assignment helped them in understanding the money spent for electricity.

- ❖ *Benefit of the practice:*

- ✓ Students had hands on experience on EB tariff calculation.
- ✓ It helped them in knowing the EB tariff calculation procedure.

- ❖ *Challenges faced in implementation:*

- Few students faced problem in creating the account in TANGEDCO. Hence they were asked to calculate the same and present the consumption patten manually
