

RAMCO INSTITUTE OF TECHNOLOGY

Approved by AICTE, New Delhi & Affiliated to Anna University

NAAC Accredited with 'A+' Grade & An ISO 9001: 2015 Certified Institution

NBA Accredited UG Programs: CSE, EEE, ECE and MECH

Department of Mechanical Engineering

Academic Year: 2025 - 26 (Odd Semester)

Alumni Interaction Report

Event Title: Career Guidance for Final Year Students

Date of the Event: 25/10/2025

Time: 02:00 PM

Venue: C2L02, C2L03 & Seminar Hall

Number of Participants: 110

Program Details:

Nature of session	Purpose of Interaction	Target Audience	POs relevance
Alumni – Career Awareness meet (AM/25-26/07)	To motivate students toward career readiness and industrial practices through alumni experience sharing.	II, III & IV year Mechanical Students	PO1, PO3, PO5, PO7

Glimpse of the meet:

Speakers Details	
Name of the Alumnus	Mr. D. Anithrajaseelan
Date and Time	25/10/2025 02.00 PM to 04.30 PM
Venue	C2L02, C2L03 & Seminar Hall
Target Audience	II, III & IV Year Mechanical Students
Nature of Interaction	1. The session was an interactive alumni engagement focusing on bridging the gap between academic learning and industrial expectations. 2. Mr. Anithrajaseelan shared his journey from campus to corporate, highlighting real-world challenges and opportunities in procurement, operations, and supply chain management.
Present Position	Mr. D. Anithrajaseelan (2019 - 2023 Batch) SME Procurement Officer, Wipro Technologies, Chennai

Key Highlights of the Session:

For II Year Mechanical Students

1. **Understanding Industrial Expectations**

Mr. D. Anithrajaseelan briefed students on how industries value a strong foundation in core mechanical subjects such as manufacturing processes, materials, and design principles.

2. **Importance of Practical Learning**

He emphasized participating in workshops, lab sessions, and mini-projects to connect classroom learning with real-world applications.

3. **Soft Skills Development**

The alumnus encouraged students to improve communication, time management, and teamwork skills, as these are essential from the early stages of their academic journey.

4. **Early Career Awareness**

Students were motivated to explore different mechanical domains like design, production, and supply chain to identify their area of interest early.

5. **Motivational Message**

He advised students to stay curious, build technical confidence, and start preparing early for both industrial and higher education opportunities.

For III Year Mechanical Students

1. **Bridging Academics and Industry**

The alumnus explained how third-year students should begin applying theoretical knowledge to practical case studies, internships, and industrial training.

2. **Career Skill Enhancement**

He highlighted the need to acquire intermediate-level skills in tools like AutoCAD, SolidWorks, and ERP software such as SAP, which enhance employability.

3. **Internship and Project Exposure**

Students were advised to take part in internships, industrial visits, and technical competitions to gain hands-on understanding of industrial workflows.

4. **Industry Certifications**

Mr. Anithrajaseelan recommended pursuing certifications in Lean Manufacturing, Supply Chain, or Quality Management to strengthen their resumes.

5. **Professional Networking**

He suggested maintaining an updated LinkedIn profile and actively connecting with professionals to learn about emerging opportunities.

For IV Year Mechanical Students

1. **Transition from Campus to Corporate**

The alumnus shared his personal experience of entering the corporate world after graduation and discussed challenges faced during the early career phase.

2. **Career Readiness and Interview Preparation**

He guided students on resume building, group discussions, and technical interviews, emphasizing the importance of clarity and confidence.

3. **Corporate Roles for Mechanical Engineers**

Mr. Anithrajaseelan explained the evolving roles for mechanical graduates in procurement, supply chain, operations, and analytics sectors.

4. **Balancing Technical and Managerial Skills**

He advised final-year students to balance domain expertise with leadership, analytical thinking, and decision-making skills to succeed in multidisciplinary environments.

5. **Long-term Career Planning**

The alumnus motivated students to keep learning through online courses, pursue higher studies or professional certifications, and maintain a growth mindset for sustained career success.

Message to Juniors

"Mechanical engineers must think beyond traditional roles — explore, innovate, and align your technical skills with industry demands. Every project, every internship is an opportunity to grow and build your professional identity."

Feedback from Participants

Students found the session informative and inspiring. They appreciated the alumnus's clear guidance on career pathways, skill development, and industrial exposure, which motivated them to plan their academic and professional growth more effectively.
