

RAMCO INSTITUTE OF TECHNOLOGY

Approved by AICTE, New Delhi & Affiliated to Anna University

NAAC Accredited with 'A' Grade & An ISO 9001: 2015 Certified Institution

NBA Accredited UG Programs: CSE, EEE, ECE and MECH

Department of Mechanical Engineering Alumni Association

Academic Year 2024 – 2025 (Odd Semester)

Details of Programme Organized

Sl. No.	Contents	Details
01.	Title of the Programme	Student Alumni Interaction- "Learning Beyond the Classroom"
02.	Programme Theme	Alumni – Career Awareness meet (AM/24-25/01)
03.	Programme Type	Alumni Meet
04.	Details of resource persons	Mr.I.ARULMARIAAKASH Mr.K.GOKUL (2020-2024 Batch Students) Assistant Manager-Mechanical The Ramco Cements Ltd, RR Nagar, Tulukkapatti
05.	Mode & Venue / Platform	Offline Mode & C2L03 - Class Room
06.	Date & Duration	31.08.2024 & 50 minutes
07.	No. of Student Participants	142
08.	No. of Faculty Participants	3
09.	No. of External Participants	NA
10.	Expenditure amount (if any)	NA
11.	Social Media URL	NA
12.	Video URL (if any)	NA

13. Objectives of the Programme:

The session aimed to provide students with an understanding of industry expectations, career progression, and practical knowledge, particularly focusing on Ramco Cements' recruitment process and life in the industrial sector.

14. Detail description of the activity:

a. Introduction to Industry Life

Arulmarinakash and Gokul opened the session by reflecting on their career journeys at Ramco Cements. They discussed how the academic foundation laid at RIT helped them succeed in the mechanical engineering domain, with a special focus on materials, manufacturing, and thermal systems.

b. Learning beyond the Classroom

The alumni stressed the importance of internships, projects, and industrial training as critical components of preparing for the workplace. They encouraged students to enhance their technical skills through continuous learning in areas such as Computer-Aided Design (CAD), Computer-Aided Engineering (CAE), and simulation tools.

c. Interview Process at Ramco Cements

The alumni provided a detailed account of the interview process at Ramco Cements, which consists of several stages designed to assess both technical and soft skills. They highlighted the following stages of the selection process:

- **Aptitude Test:**

The process begins with an aptitude test, which evaluates the candidates' problem-solving abilities, logical reasoning, and basic mathematical skills. This stage is crucial as it serves as the initial screening to filter out candidates with a strong foundation in analytical thinking.

- **Technical Test:**

After clearing the aptitude test, candidates undergo a technical test focusing on core mechanical engineering subjects. This test covers a range of topics, including thermodynamics, materials science, manufacturing processes, and machine design. Candidates need to be well-prepared with a deep understanding of fundamental concepts.

- **Group Discussion (GD):**

In this stage, the selected candidates participate in a group discussion to assess their communication skills, leadership qualities, and ability to work as a team. The GD typically revolves around

industry-relevant topics or current issues, requiring candidates to present logical and structured arguments.

- **Technical Interview:**

The technical interview is conducted by a panel of experts from the company. It focuses on assessing the candidates' technical knowledge, problem-solving capabilities, and practical applications of mechanical engineering concepts. The alumni shared that during their interviews, they were asked to solve real-world engineering problems, explain design approaches, and discuss various aspects of manufacturing and thermal systems.

- **HR Interview:**

The final stage is the HR interview, where the candidate's overall personality, career goals, and fit for the company are evaluated. Questions regarding the candidate's motivation, strengths, and ability to work in a dynamic environment are common. The HR round also includes discussions on salary expectations, job roles, and career progression within the company.

d. Career Guidance and Placement Tips

In addition to discussing the interview process, the alumni provided insights on how to approach the placement season, emphasizing the importance of thorough preparation for both technical and aptitude tests. They suggested dedicating time to solving past papers, practicing technical problems, and enhancing communication skills for the group discussion and interviews.

e. Insights on Ramco Cements

Gokul and Arulmariaakash shared details about their day-to-day responsibilities at Ramco Cements, explaining the significance of their technical roles and the importance of continual learning. They highlighted how working at Ramco Cements has allowed them to grow professionally, both in technical and managerial aspects.

15. Interactive Q&A Session

The session ended with an interactive Q&A, where students posed questions about career opportunities, the interview process, and specific technical challenges in the industry. The alumni offered practical advice on how to prepare for different stages of the recruitment process and emphasized the importance of staying focused and committed during placements.

16. Conclusion:

The alumni interaction session with Arulmariaakash and Gokul was a resounding success. It gave students not only an in-depth understanding of the recruitment process at Ramco Cements but also practical tips for excelling in their future careers. Such sessions help foster strong connections between alumni and current students, benefiting the RIT community at large. The students gained insights into the skills and qualities required to succeed in the industry, leaving them motivated and better prepared for their professional journeys.

17. Programme Photographs:

18. What did you learn from this meet?

- Industry Relevance of Academic Knowledge.
- Importance of Continuous Learning.
- Thorough Preparation for Placements.
- Communication and Teamwork Matter
- Real-World Problem Solving.
