

Department of Mechanical Engineering

Academic Year: 2025 - 26 (Odd Semester)

Alumni Interaction Report

Event Title: Career Guidance for Final Year Students

Date of the Event: 25/09/2025

Time: 05:00 PM

Mode: Online (via Google Meet)- meet.google.com/ujj-sgwc-qre

Number of Participants: 38

Program Details:

Nature of session	Purpose of Interaction	Target Audience	POs relevance
Alumni – Career Awareness meet (AM/25-26/05)	- To provide career guidance for final year students on opportunities in procurement, supply chain, and corporate roles. - To share real-world insights from experiences at Wipro and Walmart. - To help students develop communication, analytical, and managerial skills for multidisciplinary careers.	Final year Mechanical Students	PO1, PO3, PO5, PO7

Glimpse of the meet:

Speakers Details	
Name of the Alumnus	Mr. D. Anithrajaseelan
Date and Time	25/09/2025 05.00 PM
Meeting Platform	Online (via Google Meet)
Target Audience	Final Year Mechanical Students
Nature of Interaction	1. The session was a career awareness and professional guidance interaction, where the alumnus shared insights on procurement, supply chain, and corporate roles relevant to mechanical engineers. 2. It was an interactive knowledge-sharing session focusing on the development of analytical, communication, and managerial skills required for multidisciplinary engineering careers.
Present Position	Mr. D. Anithrajaseelan (2019 - 2023 Batch) SME Procurement Officer, Wipro Technologies, Chennai

Key Highlights of the Session

1. Overview of Procurement Roles for Engineers

Mr. Anithrajaseelan explained that mechanical engineers play a critical role in technical procurement and supply chain management. He emphasized that modern procurement is not limited to purchasing but involves,

- Evaluating technical specifications and supplier capabilities.
- Managing sourcing strategies with data analytics.
- Reducing operational costs through value engineering.
- Ensuring sustainability and quality compliance in supplier networks.

2. Skills Required for Procurement & Corporate Roles

He highlighted the key skills mechanical engineers should develop to succeed in such roles,

- Strong fundamentals in materials, manufacturing, and cost estimation.
- Proficiency in ERP tools like SAP and Oracle.
- Analytical decision-making and negotiation skills.
- Communication and teamwork for cross-department coordination.
- Adaptability to corporate and global work environments.

3. Career Guidance for Final-Year Students

Mr. Anithrajaseelan encouraged students to explore diverse roles beyond traditional mechanical fields such as procurement, operations, project management, and supply chain analytics. He emphasized the importance of,

- Continuous learning through certifications like Lean Six Sigma and Supply Chain Management.
- Building LinkedIn profiles and networking with professionals.
- Taking internships in industries that offer real-time project exposure.
- Balancing technical and managerial skills to meet evolving industry needs.

Message to Juniors

“Mechanical engineering opens doors to a wide range of industries — from manufacturing to corporate strategy. Focus on learning practical tools, understand how systems work, and build your communication and analytical skills. These will define your career growth.”

Students appreciated Mr. Anithrajaseelan's insights on career diversification and the real-world relevance of procurement roles for mechanical engineers. His journey from Walmart to Wipro inspired many to pursue interdisciplinary opportunities with confidence.

M. John
