- Engineering mechanics
- Material Science
- Manufacturing Technology-I
- Electrical drives and control
- Transforms and partial differential equations
- Strength of materials
- Statistics and Numerical methods
- Thermal Engineering II
- Air pollution and control engineering
- Design of Transmission systems
- Finite Element analysis
- Heat and mass transfer
- Computer aided design and manufacturing
- Hydraulics and pneumatics
- Power plant Engineering
- Process planning and cost estimation
- Mechatronics
- Refrigeration and air conditioning
- Non destructive testing and evaluation
- Green building design
- Principles of management
- Production planning and control

“Student – Alumni Interaction meet” – RIT/MECH/AM/21-22/01 – My Story in RIT was held by the department of Mechanical engineering on 20.09.21 (Monday). The prime objective of the program is to share knowledge and build strong relationship between the students and alumni. He motivated the second year students regarding academic improvements, importance of extracurricular activities. At the end of the session there was an interactive session, where students gained information about how to score good grades in problem based courses, outcome of conceptual learning, RIT learning resources utilization and effectiveness of student’s team work.
