

RAMCO INSTITUTE OF TECHNOLOGY

Department of Mechanical Engineering

Academic Year: 2019- 2020 (Odd Semester)

Date: 13.08.2019

Innovative Practice(s) description

Course Code & Title: GE6757 & Total Quality Management

Degree, Semester & Branch: VII Semester B.E. Mechanical Engineering 'A'

Name of the Faculty member: Mr.G.Prabu ram, AP(SG)/Mech

Group Activity on Cause and Effect Diagram & Brainstorming

Now a days in Industries identification of causes of problem plays a vital role for Engineers. They have to prevent the repetition of occurrence in future. As a part of prevention the manager must analyze all the possible causes for the failure of the system or procedure.

In order to make the students to get exposed in analyzing the possible causes of the current scenario of industries, a group activity on root cause analysis and Brainstorming was given. Here the students were grouped into 4 or More in a team. Following case studies were given to students for which they have to identify all possible major root causes and sub root causes for the declination in performance

1. It is been reported that the product of your company is delivering late by the employees of your organization. Being a Manager you have been asked to find out the root cause for the late delivery of the product.
2. It is been reported that the cooperation in your branch office is very less and because of that the business is not going well. With the help of cause and effect diagram try to identify the causes of the problem
3. It is been reported that the billing time in your super market is very high. Being a Manager you have been asked to find out the root cause for the Long waiting time.
4. It is been reported that the pass percentage of your class is very low. Being a Class representative you have been asked to find out the root cause for the Low Pass percentage
5. It is been reported that the sale of Automobile was declined for the past 9 Months. Being an Engineer you have been asked to find out the root cause for the decline in sale of Automobile products .

Following Case study was given for Brain storming and team of students are asked to found out all possible solution.

1. How do we can improve the Quality, Performance, and Profitability of Tamil Nadu State Bus Transportation?

After that one from each team will summarize their root causes they have identified and finally the consolidated root causes are summed up

This activity helps in attaining the following CO – PO mapping

Course Outcome / Programme Outcome	PO2	PO3	PO4	PO9	PO11
CO2 – Students will be able to apply the tools and techniques of quality management to manufacturing and service processes	3	3	2	3	1

GE6757 Total Quality Management

Class: VII Semester B.E. Mechanical Engineering 'A'

Student's Name (Register No): 953616114053 , 953616114303 , 953616114049, 953616114048

Activity Name: Brainstorming

Problem Statement: How do we can improve the Quality, Performance, and Profitability of Tamil Nadu State Bus Transportation?

Possibilities ,

- (i) Improve the quality of seats , suspensions seats should be install.
- (ii) Notifications about the next bus will come in the respective stops using digital board or any other effective technology
- (iii) Buses should be stop in the all intermediate bus stops.
- (iv) Increase the waiting time in the bus stop.
- (v) Maintain the buses properly similar to the private buses.
- (vi) Create the application for checking the timing of a respective buses.
