

RAMCO INSTITUTE OF TECHNOLOGY

Department of Mechanical Engineering

Academic Year: 2019- 2020 (Odd Semester)

Date: 09.08.2019

Innovative Practice(s) description

Course Code & Title: ME8381 – Computer Aided Machine Drawing Laboratory

Degree, Semester & Branch: III Semester B.E. Mechanical Engineering

Name of the Faculty member: 1. Mr.G.Prabu ram, AP(SG)/Mech

2. Mr.K.Amudhan, AP/Mech

3. Mr.R.Venkatesh, AP/Mech

4. Mr.R.Prabharan, AP/Mech

Context Based Learning of Manual Machine Drawing

Manual assembly machine drawing are still being in practice in some of the Research and Development organization due to it standards. In this regard, a 3D Printed Knuckle joint assembly is utilized here for Context based learning.

Students were given the 3D printed Knuckle joints in disassemble position and asked to assemble the same to understand about assembly of components. Through this activity the students were able to understand the assembly drawing and importance of Manual assembly drawing. This helped in students to inculcate the knoweldge about assembled machine drawing.

This activity helps in attaining the following CO – PO mapping

Course Outcome / Programme Outcome	PO2	PO3	PO9	PO10	PO12
CO2 – Students will be able to Re-create part drawings, sectional views and assembly drawings as per standards	1	3	2	1	1
