

RAMCO INSTITUTE OF TECHNOLOGY

Department of Mechanical Engineering

Academic Year 2020-2021 (Odd Semester)

Innovative practice(s) description

Course code and title: GE8071 Disaster Management

Name of the Instructor(s): Dr.S.Godwin Barnabas, ASCP/Mechanical

Date & Time: 17.10.2020 & 10:15 AM to 11.00 AM

Real time case studies Man Made Disaster

- After completion of the UNIT I: Introduction to Disasters in GE8071 Disaster Management it is expected that the student will be able to differentiate between man-made and natural disaster.
- By this practice students understand about the man-made disaster and also they can able to differentiate between manmade and natural disaster.
- Students will come to know how these types of disasters can be avoided with a proper preparedness and mitigation measures.
- Through this activity, the students can able to learn more about the concept of man-made Disaster and how this type disasters can be prevented.

Figure.1.chernobyl disaster

Figure.2.Moulivakkam Tragedy

OUTCOME:

- Real time case studies will provide hands on experience for the students to deal with the case study ques.
- Student will understand the importance of preparedness in disaster.
- Students will be able to explain the relation between the hazard and risk.

This activity helps in attaining the following CO – PO mapping:

Course Outcome / Programme Outcome	PO1	PO2	PO3	PO6	PO7
CO1 – To provide students an exposure to disasters, their significance and types	2	2	2	3	3
