

RAMCO INSTITUTE OF TECHNOLOGY
Department of Mechanical Engineering
Academic Year 2019 – 2020 (Even Semester)

Innovative practice(s) description

Course code and title: GE8075 Intellectual Property Rights
Name of the Instructor(s): Mr.R.Arun Kumar, AP/Mechanical
Date & Topic: 13.01.2020 & Reflective report on remarkable patent

Rubrics and Plagiarism elimination in Assignment

Acknowledging the owner of a work is the most important aspect of IPR. In connection to that, students were asked to submit an assignment on '*Reflective report on remarkable patent*'. For the same, every student was assigned with different remarkable patent. This eliminates plagiarizing between students. A rubric was formulated to assess the assignment in which weightage was given to non-plagiarizing content from web source, citation of source document, content, etc. This gave the students a clear clarity on expectations from the assignment.

Two online tools, '*Plagiarism detector*' and '*Duplichecker*' were used to check the plagiarism made by the students. The same report was submitted to the students along with comments about their reflective report. This gave them a clear clarity where do they lag in their submission and helps them to improve next time.

Outcome:

- This makes them to understand the practical aspect of possible IPR registration for a product

This activity helps in attaining the following CO – PO mapping:

Course Outcome / Programme Outcome	PO6	PO7	PO8	PO9	PO10	PO12
CO1 – The student will be able to describe the concepts of various IPRs	3	2	3	1	2	2

Write a reflective report *including details of inventor, background of invention, patent details and other additional features* on remarkable invention assigned for you that caused a big change in society. At the end of the reflective report refer the source you have cited. [CO1, L3]

Sl. No.	Name of the Student	Product Name	Title of the Invention
1.	Aakash K	Magnetic Levitation	Electromagnetic inductive suspension and stabilization system for a ground vehicle
2.	Abishake P	iPhone	Electronic device
3.	Adhithya Vishnu Kumar M	Motorized Exoskeleton	Locomotion assisting device and method
4.	Ajith S	Self-Driving Car	Vision system for an autonomous vehicle
5.	Aravind S	3D printer	Apparatus for production of three-dimensional objects by stereolithography
6.	Ari Krishnan P	Bionic Eye	Retinal prosthesis and method of manufacturing a retinal prosthesis

Assignment I on IPR

Some Rubric

You've already rated students with this rubric. Any major changes could affect their assessment results.

Criteria	Ratings				Pts	
Timely Submission	4.0 pts Excellent Submitting on or before time	3.0 pts Good Submitting a day delay from deadline	2.0 pts Satisfactory Submitting within 3 days from deadline	1.0 pts Need Improvement Submitting after 3 days from deadline	4.0 pts	
Plagiarism Students are expected to avoid plagiarism and to cite the source of content of reference	4.0 to >3.0 pts Excellent 0% to 10% of plagiarism	3.0 to >2.0 pts Good 11% to 30% of plagiarism	2.0 to >0.0 pts Satisfactory 31% to 50% of plagiarism	0.0 pts Unsatisfactory, subjected to plagiarism policy (Refer Course micro planning document) above 50% of plagiarism	4.0 pts	
Citation	2.0 to >1.0 pts Excellent Reference sources are properly cited		1.0 to >0.0 pts Good Reference sources are partially cited	0.0 pts Unsatisfactory No proper citation	2.0 pts	
Content of the Assignment	6.0 to >4.0 pts Full Marks Impressive, unique with 90% to 100% relevancy and addressing all the parts in question		4.0 to >3.0 pts Good 75% to 90% relevancy of content and addressing at least 75% of parts in question	3.0 to >1.0 pts Satisfactory 50% to 75% relevancy in content with improper addressing of parts asked in questions	1.0 to >0 pts Need Improvement Less than 50% relevancy of content	6.0 pts
Presentation	4.0 to >3.0 pts Excellent Impressive presentation with legible hand writing	3.0 to >2.0 pts Good Pleasing presentation with readable hand writing	2.0 to >1.0 pts Satisfactory Presentation without title page containing assignment information	1.0 to >0 pts Need Improvement Poor presentation without title page and unreadable hand writing	4.0 pts	

Total Points: 20.0

ASSIGNMENT TITLE: APPARATUS FOR UTILIZING SOLAR RADIANT ENERGY

NAME OF THE INVENTOR: J. EDWARD WESTON

NATIVE OF INVENTOR: NEWARK, ESSEX COUNTRY, NEWJERSEY

PATENT DETAILS:

PATENT NO: 389124

PATENT DATE: SEPTEMBER 4, 1888

PURPOSE OF THE INVENTION:

TO PRODUCE ELECTRICAL CURRENT FROM RADIANT ENERGY PRODUCED FROM SUN, AND FROM ELECTRICAL ENERGY IT CAN ALSO BE CONVERTED INTO MECHANICAL ENERGY.

FUNCTIONS OF THIS INVENTION:

- "THERMOPILE" IS USED TO PRODUCE CURRENT WHEN SOLAR RAYS FALLS ON ITS END.
- TO OBTAIN BOTH LIGHT AND HEAT ENERGY A ABSORBENT MATERIAL (LAMP BLACK) IS USED TO COVER THE FACE OF THERMOPILE.
- THE BATTERY AND SECONDRY BATTERY IS USED TO STORE THE DERIVED ENERGY.
- SECONDRY CELL IS USED TO TRANSFORM RADIANT

Timely Submission
Good
Submitting a day delay from deadline
Comments
Dear Hari Prasath,
Good effort in your assignment. Try to submit the same on or before deadline
3 / 4 pts

Plagiarism
Excellent
0% to 10% of plagiarism
Comments
(checked your report in "Plagiarism Checker" and "DupliChecker sites") it reported your work as 100% and 86% unique.
Good effort.
Few grammar corrections are there:
E.g: converted is misspelled as converted
secondary as secondary
radiant as radiant
4 / 4 pts

Citation
Good
Reference sources are partially cited
Comments
Patent image link is cited but not the patent document is cited.
Other features, advantages sources are also to be cited.
1 / 2 pts

Content of the Assignment
Full Marks
Impressive, unique with 90% to 100% relevancy and addressing all the parts in question
Comments
Your submission addresses all the parts of question. But the further details could have been included
5 / 6 pts

Presentation
Excellent
Impressive presentation with legible hand writing
Comments
Good effort on presentation. It is impressive
4 / 4 pts
