TPS Activity on Types of IPR identification

Making the students to understand the difference between various forms of Intellectual Property Rights will help them in attaining the CO1. Through this activity, students are made into group and three products are given to them in activity sheet. Students have to find all possible IPR that can protect the product and same has to be justified. This can help the faculty member to assess the understanding level of the student.

Outcome:

- This makes them to understand the practical aspect of possible IPR registration for a product

This activity helps in attaining the following CO – PO mapping:

Course Outcome / Programme Outcome	PO6	PO8	PO9	PO10	PO12
CO1 – The student will be able to describe the concepts of various IPRs	3	3	1	2	2
