

RAMCO INSTITUTE OF TECHNOLOGY
Department of Mechanical Engineering
Academic Year 2019 – 2020 (Odd Semester)

Innovative practice(s) description

Course code and title: GE6787 Total Quality Management
Name of the Instructor(s): Dr.S.Rajakarunakaran, Professor, Mechanical
Mr.G.Prabu ram, AP (Sr.Gr.)/Mechanical
Date & Time: 02.08.2019 & 3:20 PM to 4:10 PM

Reflective Journal on Kaizen

Kaizen is a philosophy that defines management's role in continuously encouraging and implementing small improvements involving everyone. It is the process of continuous improvement in small increments that make the process more efficient, effective, under control, and adaptable.

As a part of self learning, the kaizen concept was initially taught to the students. Later reflective journal methodology was adapted. In this methodology, students were clubbed into 4 per group. Then they were given a copy of a review journal on Kaizen practices followed in various industries across the globe. Every group were given time to read the journal and finally they were asked to submit a report on inferences from the journal.

This enabled the students not only to know the kaizen concept but also to understand with an insight knowledge about various kaizen practices followed which may help them in working career.

This activity helps in attaining the following CO – PO mapping:

Course Outcome / Programme Outcome	PO2	PO3	PO4	PO10
CO2 – The students will be able to explain the principles of TQM	2	2	1	2
