

RAMCO INSTITUTE OF TECHNOLOGY
Department of Mechanical Engineering
Academic Year 2019 – 2020 (Odd Semester)

Innovative practice(s) description

Course code and title: GE8152 Engineering Graphics

Name of the Instructor(s): Mr.J.Jerold John Britto, AP(SG)/Mechanical

Date & Time: 30.10.2019

Activities Based Learning

After completion of the Unit III & IV Projection of Solids and Development of Solids in GE8152 Engineering Graphics, it is expected that the student will be able to describe and identify the various solids category and development procedures.

In this activity, students were given to concept of basic model construction procedure from the available paper waste material and were asked to fabricate and explain the concepts.

Fig.1 Projections of Solids model

Fig. 2 Development of Surfaces - Model

Fig. 3 Projection and Development of Surfaces - Model

Finally, the students have fabricated 12 models of Solids and Development of solids with available paper waste material and were explained the concept behind topics

This activity helps in attaining the following CO – PO mapping:

Course Outcome / Programme Outcome	PO1	PO3	PO4	PO5	PO6	PO8	PO9	PO12
CO3 – Student will be able to Draw the projections of simple solids with different conditions.	3	2	2	2	1	1	1	1
CO 4 - Student will be able to Draw the projections and sectional views of simple solids and develop the lateral surface of simple and truncated solids.	2	1	3	2	1	2	1	1
