

VII SEMESTER B.E ECE

Unit-II Assignment-1 Hydraulic Circuit Design

Valai Ganesh • Sep 4

100 points

Due Sep 7, 11:59 PM

Dear Students,

Hydraulic Circuit Design- Basic Circuit Question is given below

1. Create a circuit- Actuation of double acting cylinder using Two Pressure Valve
2. Create a circuit- Actuation of double acting cylinder using Shuttle Valve

Last Date for submitting the assignment is 07.09.2020

Instructions:

- (i) Create the circuit and upload the same using .jpg/.pdf extension
- (ii) Output circuit contains the Register Number and Name of the Participant
- (iii) See the Rubric for mark allocation
- (iii) If you are facing any problems while working with software please let me know via e-mail/discussion forum in Google Classroom page/WhatsApp at 9043489697

Rubric: 4 criteria • 100 pts

Unit-II Assignment-1 Hydraulic Circuit Design

/100

Components Used

/25

Usage of Components

I25 pts	II20 pts	III15 pts
Excellent	Good	Average

Components Order

/25

Placing the component in proper order

I25 pts	II20 pts	III15 pts
Excellent	Good	Average

Working

/25

Circuit simulation with conditions given

I25 pts	II20 pts	III15 pts
Excellent	Good	Average

Timely Submission

/25

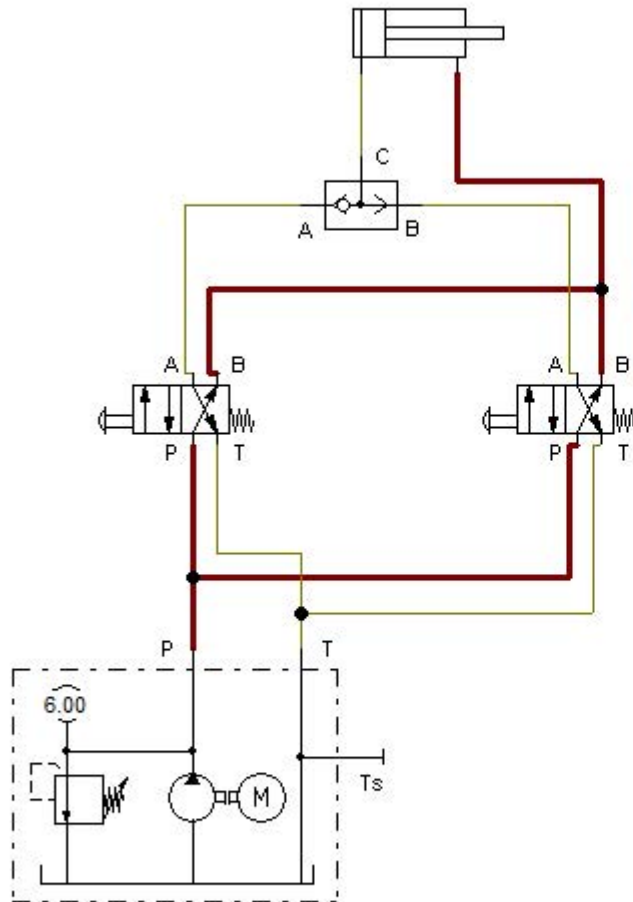

Submit the circuit on-time with all conditions

I25 pts	II20 pts	III15 pts
Submit the circuit before due date with working	Submit the circuit before due date with 90% working	Submit the circuit before due date with 80% working

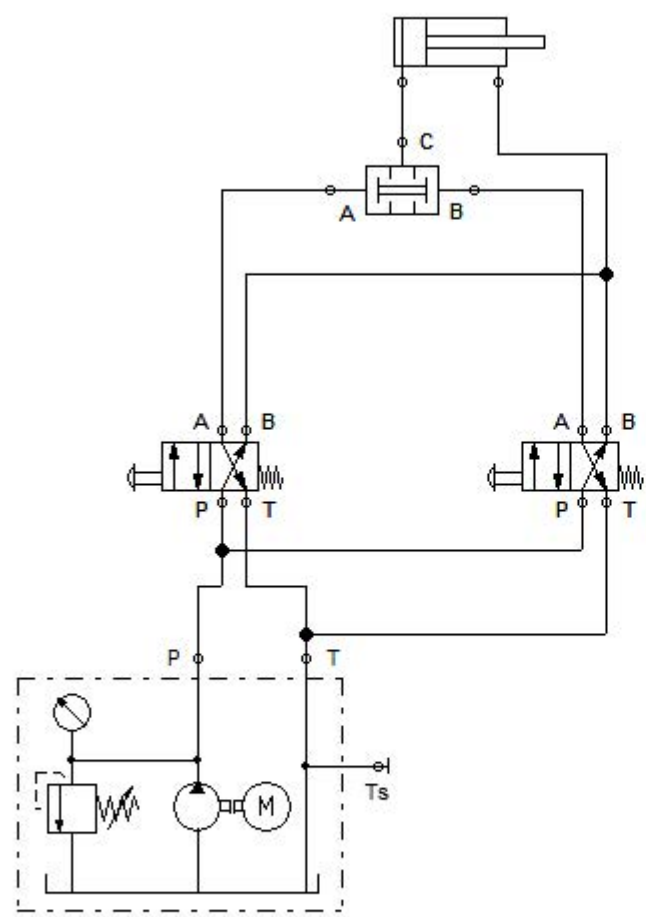

Actuation of double acting cylinder using Shuttle Valve

SAMPLE SUBMISSION

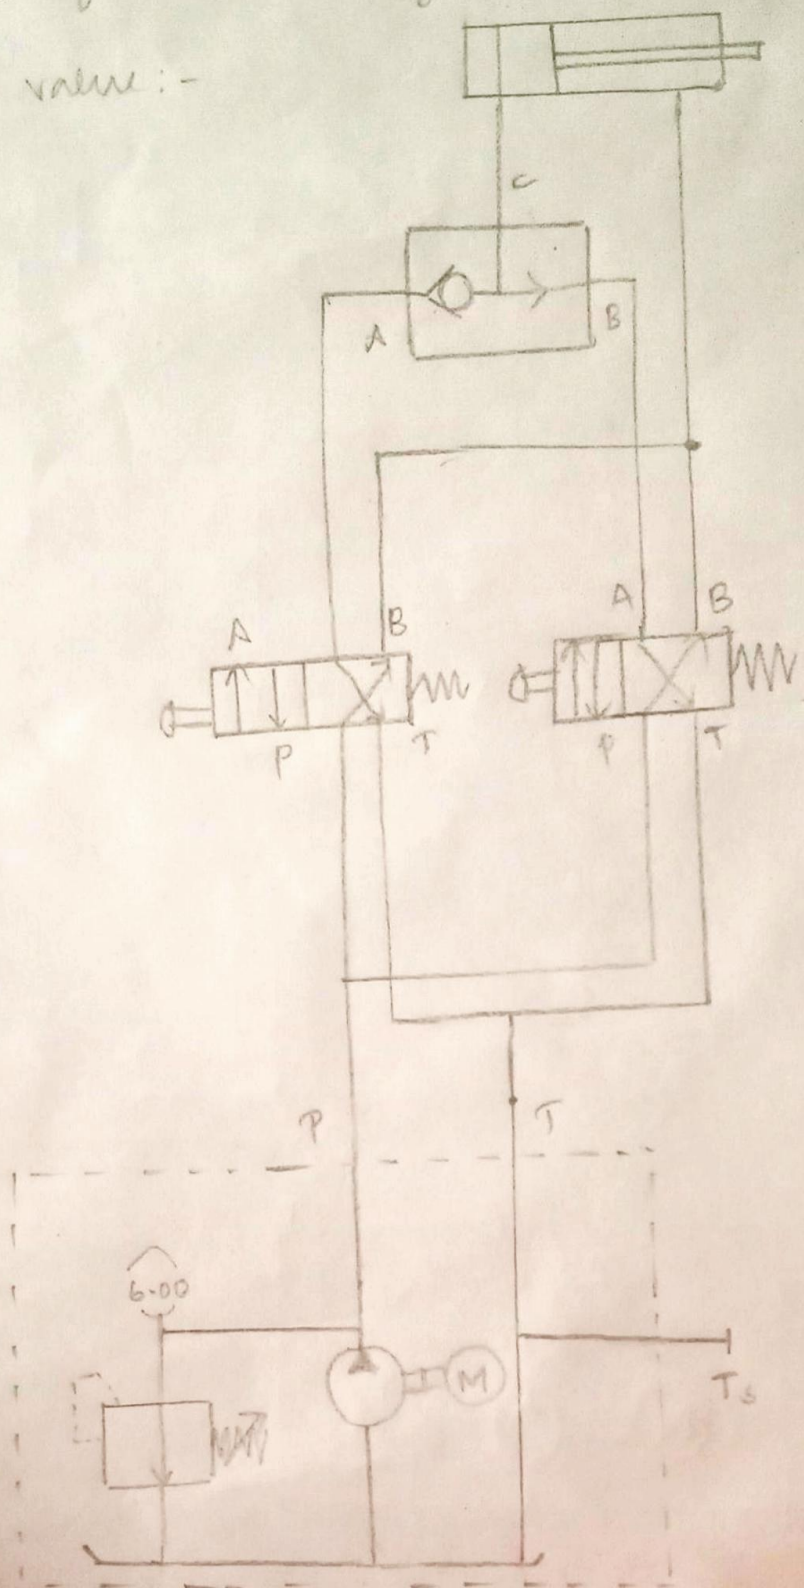

Libiya Joseph, 953617106051, IV ECE A

Actuation of double acting cylinder using Two Pressure Valve
