

RAMCO INSTITUTE OF TECHNOLOGY

Department of Mechanical Engineering

Academic Year: 2020-2021 (Odd Semester)

Innovative Practices- Virtual Laboratory Session Handling Details

Name of the Faculty	: Mr. S. Valai Ganesh
Subject Code and Title	: OAN751 Low Cost Automation
Year and Branch	: IV year ECE
Date	: 16.10.2020
Topics Covered	: Programmable Logic Controllers- Timers
Name of the Laboratory	: Industrial Electric Drives and Application of PLC
Website Link	: http://ied-nitk.vlabs.ac.in/index.html

All PLC's have timer instructions. Timers are output instructions that are internal to the programmable logic controller. Timers provide timed control of the devices that they activate or de-activate.

Basic functions of timer

- Timers are used to delay an action.
- Timers are used to run an operation for a predetermined period of time.
- Timers are also used to record the total accumulated time of continuous or intermediate events.

PLC On-Delay Timer Instruction

Test Your Knowledge

Question 1 of 5

1. In timer file 12, timer 5's timer timing bit is addressed as _____

☐ T5:12.TT
☐ T12:5.TT
☐ T12:5.TT
☐ T5:12.TT
