Online game on resource and inventory management

Management of various resources effectively is one of the predominant skill sets required for a successful entrepreneur. Resources include human resource, financial resource and other inventories. To give practice on finance management to the students, they were asked to play ‘**Online Lemonade Stand game**’. In this game, each will be given \$20 as investment. Students have to assess the climatic condition given in the game and purchase the raw material, prepare the lemonade and fix the price per cup. Then they have to sell it to the customers for which they will be getting customer satisfaction report. At end of 7 days in the game, students have to make profit out of it.

Outcome:

- This makes them to understand how they should plan all the resources for a business
- This also makes the students to learn virtually how to make profit out of investment

This activity helps in attaining the following CO – PO mapping:

Course Outcome / Programme Outcome	PO5	PO9	PO10	PO11	PO12
CO4 – Student will be able to explain the concept of capital structure and identify the factors determining it	2	2	2	3	1
