

**RAMCO INSTITUTE OF TECHNOLOGY**

**Department of Mechanical Engineering**

**Academic Year 2019 – 2020 (Odd Semester)**

**Innovative practice(s) description**

**Course code and title:** ME8595 Thermal Engineering II

**Name of the Instructor(s):** Dr.V.Sivakumar,AP(SG)//Mechanical

Mr.M.Ashok Kumar, AP(SG)/Mechanical

Mr.M.Sivagaminathan alias Balaji, AP(SG)/Mechanical

**Date & Time:** 07.08.2019 & 03:20 PM to 04:10 PM

**Peer learning in the topic performance of steam generator**

To improve the problem solving skill among the students, peer learning is one of the best practices. After completion of the Unit II Boilers in ME8595 Thermal Engineering II it is expected that the student will be able to calculate the performance parameters of boiler to compare performance of different types of boilers. Through this activity all the students share their problem solving techniques to group members. Totally 10 groups have been formed and each group has been given one problem and the students were directed to solve by sharing their knowledge.

### OUTCOME:

The problem solving skills will be improved among the students.

This activity helps in attaining the following CO – PO mapping:

| Course Outcome / Programme Outcome                                                                                                                     | PO1 | PO2 | PO3 | PO4 | PO5 | PO6 | PO9 | PO12 |
|--------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----|-----|-----|-----|-----|-----|------|
| CO2 – Student will be able to explain the functioning and features of different types of boilers and auxiliaries and calculate performance parameters. | 3   | 3   | 2   | 2   | 1   | 1   | 1   | 2    |
