Motivation is a key factor that always keeps an entrepreneur in his track towards attaining his goal. Achievement motivation always keeps the entrepreneur to bounce back whenever he / she faces a failure. In order to assess the student's achievement motivation an activity on **Thematic Apperception Test** was given.

In this activity, students will be given an image and they have to observe the image and narrate a story. In their narration they have to address the following:

- What has happened?
- What is the effect of happening?
- What will be happening in future?
- How it is achieved?

Each student will come up with different story line. They are asked to summarize their story with others and asked to share their thoughts. Through this each and every student can assess themselves how their thoughts and motivation differ from others.
