

Department of Electrical and Electronics Engineering
Academic Year 2021 – 2022 (Odd Semester)

Degree, Semester & Branch: III Semester B.E. EEE – B Section

Course Code & Title: EE8353 Electrical Drives and Control

Name of the Faculty member: Mr. A. Guna

Innovative Practice Description

- **Unit / Topic:** Unit I / Introduction to Electrical Drives
- **Course Outcome:** CO 1
- **Topic Learning Outcome:** TLO1
- **Activity Chosen:** One minute paper
- **Justification:**
 - The Basic components of electric drive are explained in the class and its block diagram is drawn. The flow in the block diagram is the basic concept for controlling the Electric drive. Different type of Electric drive is used for different application. By learning this students able to choose a suitable electric drive for given application

Time Allotted for the Activity: 5 Minutes

• **Details of the Implementation:**

Total Strength is 42

Reporter: Myself

- ✓ After Explaining the concept, students were given 3 minutes to think and prepare.
- ✓ One minute was given to the student to represent their points in the paper
- ✓ Students paper were collected

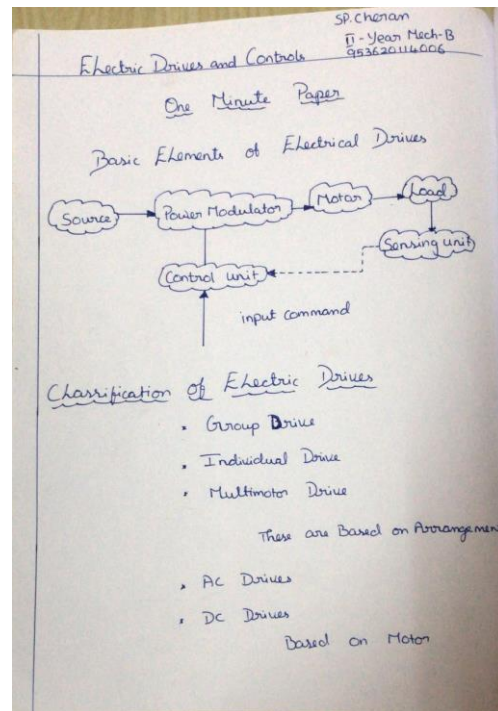

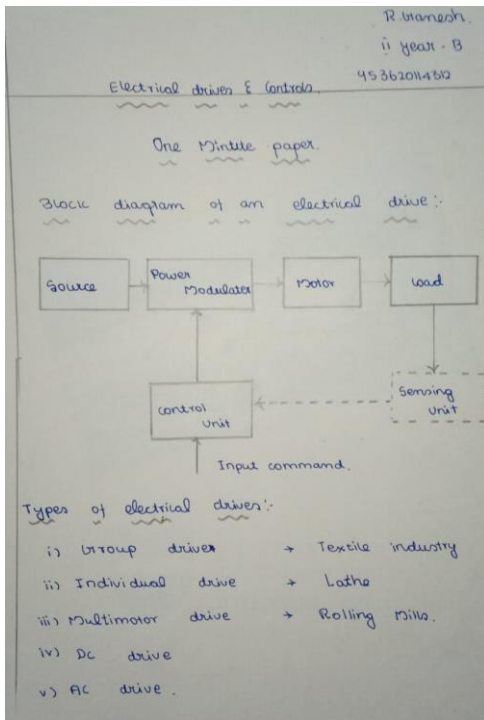

• **CO – PO / PSO mapping:**

CO	PO1	PO2	PO3	PO5	PO8	PO10	PO12
C202.1	3	2	1	1	1	1	1

• **PO / PSO mapped:**

Innovative practice	PO1
	3
Justification for correlation	Students will utilize their Basic Electrical and Electronic engineering concepts to understand the basic element and types of electric drives.

• **Images / Screenshot of the practice:**

❖ **Reflective Critique:**

❖ **Feedback of practice from students and other stakeholders:**

Students felt that they could easily reproduce the concept.

❖ **Benefit of the practice:**

- Many students have answered the question asked in Internal Assessment Test – I
- Students were able to explain the classification of Electric drive in detail. and many students correctly answered whenever the basic components of electric drive are asked orally.

❖ **Challenges faced in implementation:**

The student felt that the time was not adequate.

Department of Electrical and Electronics Engineering

Academic Year 2021 – 2022 (Odd Semester)

Degree, Semester & Branch: III Semester B.E. Mech – B Section

Course Code & Title: EE8353 Electrical Drives and control

Name of the Faculty member: Mr. A. Guna

Innovative Practice Description

- **Unit / Topic:** Unit IV / Classification of DC Chopper
- **Course Outcome:** CO 4
- **Topic Learning Outcome:** TLO - 12
- **Activity Chosen:** Flipped Classroom
- **Justification:**

Flipped classroom is a “pedagogical approach in which direct instruction moves from the group learning space to the individual learning space, and the resulting group space is transformed into a dynamic, interactive learning environment where the educator guides students as they apply concepts and engage creatively in the subject matter”.

The topic Classification of DC Chopper is given to two students and they explained all the five types easily since four quadrant operation of electric drive was already explained to the students in Unit II

Time Allotted for the Activity: 30 Minutes

- **Details of the Implementation**

- ✓ Two students volunteer themselves for this activity
- ✓ Student Photographer: Mr. P.Kirubha Subramanian (interested in photography)
- ✓ Report Preparation: Myself

At the Class (30 minutes)

- ✓ Unit IV Materials were already shared with the students.
- ✓ Two Students were asked to prepare the given topic and present in the classroom.
- ✓ Each Student taken 15 minutes to present their topic

- **CO – PO / PSO mapping:**

CO	PO1	PO2	PO3	PO5	PO8	PO10	PO12
C202.4	3	2	1	1	1	1	1

- PO / PSO mapped:

Innovative practice	PO3
	2
Justification for correlation	Students will analyze various types of Chopper and able to select a particular Chopper type for a suitable application

- Images / Screenshot of the practice:

Reflective Critique:

❖ *Feedback of practice from students and other stakeholders:*

Students enjoyed the concept of peer-coaching which motivated them to work as a team.

❖ *Benefit of the practice:*

1. Many students have answered the question asked Internal Assessment Test – III
2. Students were able to draw and explain any type of chopper whenever the question is orally asked.

❖ *Challenges faced in implementation:*

Students felt time was not adequate.
