

## **MEMORANDUM OF UNDERSTANDING**

This Memorandum of Understanding (MoU) is executed on 12.09.2022

**Between**

### **RAMCO INSTITUTE OF TECHNOLOGY**

North Venganallur Village, Rajapalayam – 626 117  
Virudhunagar District, Tamil Nadu. (First Party)

**And**

### **MOBILE GRID AND CLOUD COMPUTING LAB**

Department of Information Communication Engineering  
Hankuk University of Foreign Studies Korea. (Second Party)

#### **About Ramco Institute of Technology, Rajapalayam**

Ramco Institute of Technology, (RIT) promoted by Raja Charity Trust, was established during the academic year 2013-14. It is fully supported by the Ramco Group to create quality Engineers for future needs. The Institution is approved by AICTE and affiliated with Anna University, Chennai. The college has been accredited with NAAC and certified with ISO 9001:2015. CSE, EEE, ECE, and Mechanical Engineering departments of the college were accredited by NBA. The institute offers the following courses at present:

Undergraduate: 08 (AI & DS, Civil, CSE, CSBS, EEE, ECE, IT & Mechanical Engineering)

RIT Rajapalayam is interested in moving towards this MoU for the establishment of a fruitful means to exchange knowledge, information, and research and to facilitate and enhance the interaction.

#### **About Mobile Grid and Cloud Computing Lab, Hankuk University of Foreign Studies Korea**

**Mobile Grid and Cloud Computing Lab** is an independent research lab in the Department of Information Communication Engineering at Hankuk University of Foreign Studies Korea. MGC Lab conducts research in the areas of mobile distributed computing systems and the internet of things. The primary objective of the research is to develop the next generation of mobile and distributed computing systems that enable the efficient execution of emerging resource-intensive and real-time internet of things and 5G network applications.

#### **WHEREAS:**

(A) The Parties recognize their mutual interest in the fields of education, research, training and development, and dissemination of knowledge, and also, the importance of promoting collaboration and research activities.

(B) The Parties hereby record their intention to establish collaboration according to terms and conditions set out in this MoU (“the Collaboration”).

NOW, for the purposes and in the context of carrying out the Collaboration between the Parties it is HEREBY AGREED AS FOLLOWS:

#### CLAUSE 1: SCOPE OF THE MoU

- 1.1 The agreement to cooperate implies that both parties shall provide support on knowledge sharing and joint research ventures.
- 1.2 This MoU is between First Party and Mobile Grid and Cloud Computing Lab. Department of Information Communication Engineering and Hankuk University of Foreign Studies are not responsible for anything.
- 1.3 Nothing in this MOU is intended to create any legal relationship between the Parties.
- 1.4 No financial obligations are implied by this MoU.
- 1.5 Cooperation between the Parties is subject to the limitations of laws applicable to each party.
- 1.6 The parties shall not use the name, logo, trademarks, or other intellectual property for advertising or any other purposes without prior written approval.
- 1.7 The agreement of the co-operation is in education and research of Computer and Software technology fields. The collaboration may pave the way in terms of the below-mentioned items for the period of 2022- 2026.
  - a) Discussion on projects in areas of Artificial Intelligence, Blockchain, and the Internet of things.
  - b) Involvement of students in joint research projects.
  - c) Collaborative publications
  - d) Awareness programs on recent research by both Parties.
  - e) Joint project proposal submission for funding.
  - f) Joint conferences or workshops organization.
- 1.8 The coordinator will be a Technical Consultant and will support research activities at **Mobile Grid and Cloud Computing Lab, Korea**. The Mobile Grid and Cloud Computing Lab will not be responsible for any financial support.
- 1.9 Second Party may organize guest lectures for the students of the First Party on the technology trends.
- 1.10 There is no financial commitment on the part of the Ramco Institute of Technology, the First Party to take up any program mentioned in the MoU.
- 1.11 This agreement will come into effect immediately after both partners have signed it.

This MoU will be coordinated by:

|                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                    |

## CLAUSE 2 VALIDITY

2.1 This Agreement will be valid until it is expressly terminated by either Party on mutually agreed terms, during which period Mobile Grid and Cloud Computing Lab, the Second Party, as the case may be, will take effective steps for implementation of this MOU. Any act on the part of Mobile Grid and Cloud Computing Lab, the Second Party after the termination of this Agreement by way of communication, correspondence, etc., shall not be construed as an extension of this MoU

IN WITNESS WHEREOF, the undersigned, being duly authorized thereto by their respective Parties, has signed this MoU.

### **AGREED:**

For Ramco Institute of Technology

For **Mobile Grid and Cloud Computing Lab**

|                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                                              |
