RAMCO INSTITUTE OF
TECHNOLOGY
RAJAPALAYAM

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding (hereinafter called as the 'MoU') is entered into on this the 20th day of - September- Two Thousand Nineteen,

BETWEEN

Ramco Institute of Technology, North Venganallur Village, Rajapalayam - 626 117, Tamil Nadu, the First Party represented herein by its Head of the Institution Principal (hereinafter referred as 'First Party', the institution which expression, unless excluded by or repugnant to the subject or context shall include its successors - in-office, administrators and assigns).

AND

Ramco Industries Limited, "Auras Corporate Centre" 98-A, Dr. Radhakrishnan Road, Mylapore, Chennai - 600 004, Tamil Nadu, the Second Party, and represented herein by its Chief Executive Officer Shri Prem G Shanker, (hereinafter referred to as "Second Party", company which expression, unless excluded by or repugnant to the subject or context shall include its successors - in-office, administrators and assigns).

03
2019

Shri Prem G Shanker

(First Party and Second Party are hereinafter jointly referred to as 'Parties' and individually as 'Party')

WHEREAS:

A) First Party is a Higher Educational Institution named:

Name of Institution: Ramco Institute of Technology

Ramco Institute of Technology, (RIT) promoted by Raja Charity Trust, was established during the academic year 2013-14. It is fully supported by the Ramco Group to create quality Engineers for future needs. The Institution is approved by AICTE and is affiliated to Anna University, Chennai. Currently, RIT offers 4-year undergraduate Engineering programmes namely Civil Engineering, Computer Science and Engineering, Electrical and Electronics Engineering, Electronics and Communication Engineering and Mechanical Engineering, and plans to offer postgraduate and research programmes in Engineering and science. The overall management of the Institution is vested with the Governing Council under the able leadership of Shri. P.R. Venketrama Raja, Chairman, RAMCO Group of Industries. The Advisory Committee of the Institute is headed by Prof. M.S. Ananth, former Director of IIT Madras and is ably supported by leading Professors of IIT Madras, Prof.M.S.Palanichamy, former Vice-Chancellor of Tamilnadu Open University and other prominent academicians. The Advisory Committee plays a vital role in recruiting the best faculty, training them, promoting innovative teaching and encouraging research.

B) First Party & Second Party believe that collaboration and co-operation between themselves will promote more effective use of each of their resources, and provide each of them with enhanced opportunities.

C) The Parties intent to co-operate and focus their efforts on cooperation within area of Skill Based Training, Education and Research.

Both Parties, being legal entities in themselves desire to sign this MOU for advancing their mutual interest.

E) **Ramco Industries Limited:** Ramco Industries Limited is part of the US\$ 1 billion Ramco Group with interests in Cement, Dry Wall & Ceiling products, Roofing products, Cotton yarn, surgical cotton and Computer Software. With 12 plants across South Asia and 8,000 strong partner network, Ramco Industries is one of the leading building materials manufacturers in South Asia and has been at the forefront of innovation answering perplexing challenges with definitive solutions.

F) **Ramco Industries Limited,** the Second Party is promoted by Ramco Group background of the Company:

The year was 1938. It was a time when the reverberations of the Industrial Revolution had not yet reached the interiors of South India. Despite scarce capital and resources, Mr.P.A.C Ramasamy Raja setup the first spinning mill at Rajapalayam, which later became the focal point of the Ramco Group. His sharp focus on technology and quality has inspired a generation of entrepreneurs and formed the basis for the collective vision of the Group.

Under the dynamic leadership of Mr.P.R.Ramasubrahmaneya Rajha, Ramco Industries Limited was founded in 1965 and set up its first plant at Arakkonam, Tamil Nadu for the manufacture of fibre cement roofing sheets. From a modest beginning of a single plant with a production capacity of 36,000 tons per annum, the company has today grown into a major building materials player in South Asia with 12 plants and a combined production capacity of 10,00,000 tons per annum. Apart from fibre cement roofing sheets, the company has also forayed into manufacturing of calcium silicate boards, fibre cement boards, tiles, planks and non-asbestos roofing sheets and is one among the top players in the building materials industry in India and Sri Lanka.

As part of its Golden Jubilee Celebrations the company has repositioned itself and scripted a new vision of 'Pioneering Green Dry Construction' to protect nature and promote eco-friendly Green construction practices across the globe – a vision shared by the group's founder who cared for and worshipped nature.

Ramco's first plant to manufacture roofing sheets was set up at Arakkonam, Tamil Nadu in 1967. Apart from the Arakkonam plant, the company operates eight modern plants manufacturing high quality fibre cement roofing sheets in India today: Gangaikondan - Tamil Nadu, Karur - Karnataka, Maksi - Madhya Pradesh, Silvassa - UT of Dadra & Nagar Haveli, Kharagpur - West Bengal, Vijayawada - Andhra Pradesh, Anjar - Gujarat, Bihiya - Bihar. The present aggregate capacity for Fibre Cement Sheets manufacture in India is over 7 lakh tons per annum.

- G) Give related information, its branches, and dimensional information about the industry concerned with whom the MoU is sworn.

Ramco Industries Ltd introduced the Ramco Hilux Calcium Silicate Board, a versatile building material, using technology from the A & A Corporation, Japan.

These boards are rapidly replacing conventional building materials such as Gypsum boards, Plywood & Plaster of Paris across the international markets by virtue of their sheer versatility. Several landmark and iconic structures that have stood the test of time bear the Hilux stamp of excellence, signifying stronger, safer and aesthetically appealing buildings. Ramco Hilux boards and tiles are manufactured at the world class plant at Keshwana, Rajasthan with a production capacity of 48,000 metric tons per annum.

Ramco Industry's flagship product in the green line up is Hilux. Ramco Hilux is a Calcium Silicate Board made from siliceous and calcareous materials reinforced with cellulose fibers. The boards are made using laminar process and then HPSC process to give a stable crystalline structure. Ramco Hilux is a part of Ramco's vision of green constructions and is a GreenPro certified product from CII-Green Products and Service Council.

Introduced in the year 2016, Ramco Hicem Fibre Cement Boards, Tiles and Planks are made using cement, cellulose fibres and special additives. Its laminar process gives it a stable crystalline structure and is made as per IS:14862-2000. This structure brings an added advantage to Ramco Hicem, making it more durable and dynamically stable.

Ramco Hicem is part of Ramco's vision of green constructions and is a GreenPro certified product from CII-Green Products and Service Council.

Ramco Greencor is a superior roofing product, manufactured using European Technology and specially developed (PVA), Poly Propylene Fibres to give the world its first ideal industrial roofing. Ramco Greencor roofing sheets are 100% asbestos-free. Ramco Greencor is a part of Ramco's vision of green constructions and is a GreenPro certified product from CII-Green Products and Service Council.

Ramco Powerroof is made with the superior quality Portland cement and high quality imported chrysotile fibres. Chrysotile has a tensile strength of 28000 kg / sqcm. which is over 8 times greater than that of steel. Ramco Powerroof have given millions of homes, schools, and industries safe shelter, a healthy atmosphere and permanent protection from the elements.

NOW THEREFORE, IN CONSIDERATION OF THE MUTUAL PROMISES SET FORTH IN THIS MOU, THE PARTIES HERETO AGREE AS FOLLOWS:

CLAUSE 1: CO-OPERATION

- 1.1 Both Parties are united by common interests and objectives, and they shall establish channels of communication and co-operation that will promote and advance their respective operations within the **Institution** and its related wings. The Parties shall keep each other informed of potential opportunities and shall share all information that may be relevant to secure additional opportunities for one another.
- 1.2 First Party and Second Party co-operation will facilitate effective utilization of the intellectual capabilities of the faculty of First Party providing significant inputs to them in developing suitable teaching / training systems, keeping in mind the needs of the industry, the Second Party.

- 1.3 The general terms of co-operation shall be governed by this MOU. The Parties shall cooperate with each other and shall, as promptly as is reasonably practical, enter into all relevant agreements, deeds and documents (the 'Definitive Documents') as may be required to give effect to the actions contemplated in terms of this MOU. The term of Definitive Documents shall be mutually decided between the Parties. Along with the Definitive Documents, this MOU shall represent the entire understanding as to the subject matter hereof and shall supersede any prior understanding between the Parties on the subject matter hereof.

CLAUSE 2: SCOPE OF THE MoU

- 2.1 The budding graduates from the institutions could play a key role in technological up-gradation, innovation and competitiveness of an industry. Both parties believe that close co-operation between the two would be of major benefit to the student community **of all the branches of Engineering [Civil Engineering, Computer Science and Engineering, Electrical and Electronics Engineering, Electronics and Communication Engineering and Mechanical Engineering] offered at RIT** to enhance their skills and knowledge.
- 2.2 **Curriculum Design:** Second Party will give valuable inputs to the First Party in teaching / training methodology and suitably customize the curriculum so that the students fit into the industrial scenario meaningfully.
- 2.3 **Industrial Training & Visits:** Industry and Institution interaction will give an insight into the latest developments / requirements of the industries; the Second Party to permit the Faculty and Students of the First Party to visit its factories and also involve in Industrial Training Programs for the First Party. The industrial training and exposure provided to students and faculty through this association will build confidence and prepare the students to have a smooth transition from academic to working career. The Second Party may provide its Labs / Workshops / Industrial Sites for the hands-on training of the learners enrolled with the First Party.

[Handwritten signature]

- 2.4 **Internships and Placement of Students:** Second Party may render its support for Internship and placement of students of the First Party into internships/jobs, as per AICTE internship Policy. The Second Party will also register itself on AICTE Internship Policy Portal for disseminating the Internship opportunities available with them.
- 2.5 **Research and Development:** Both Parties have agreed to carry out the joint research activities in the fields of **Project Management, Design and development, Construction Materials, Production Management, Emerging Construction Practices and Testing, Design and Material Consultancy, Safety and Quality Management, Quality Assurance, Smart Building.**
- 2.6 **Skill Development Programs:** Second Party may render its assistance for training the students of First Party on the emerging technologies in order to bridge the skill gap and make them industry ready.
- 2.7 **Guest Lectures:** Second Party to extend the necessary support to deliver guest lectures to the students of the First Party on the technology trends and in-house requirements.
- 2.8 **Faculty Development Programs:** Second Party may train the Faculty of First Party for imparting industrial exposure/ training as per the industrial requirement considering the National Occupational Standards in concerned sector, if available.
- 2.9 Both Parties to obtain all internal approvals, consents, permissions, and licenses of whatsoever nature required for offering the Programs on the terms specified herein
- 2.10 There is no financial commitment on the part of the **Ramco Institute of Technology**, the First Party and RIL , the Second Party to take up any program mentioned in the MoU. If there is any financial consideration, it will be dealt separately, by both parties.

63/29/19

CLAUSE 3 INTELLECTUAL PROPERTY

- 3.1 Nothing contained in this MoU shall, by express grant, implication, Estoppel or otherwise, create in either Party any right, title, interest, or license in or to the intellectual property (including but not limited to know-how, inventions, patents, copy rights and designs) of the other Party.

CLAUSE 4 VALIDITY

- 4.1 This Agreement will be valid until it is expressly terminated by either Party on mutually agreed terms, during which period, both Parties, as the case may be, will take effective steps for implementation of this MOU. Any act on the part of either Party to other Party after termination of this Agreement by way of communication, correspondence etc., shall not be construed as an extension of this MoU
- 4.2 Both Parties may terminate this MoU upon 30 calendar days' notice in writing. In the event of Termination, both parties have to discharge their obligations

CLAUSE 5 RELATIONSHIP BETWEEN THE PARTIES

- 5.1 It is expressly agreed that **First Party** and **Second Party** are acting under this MoU as independent contractors, and the relationship established under this MoU shall not be construed as a partnership. Neither Party is authorized to use the other Party's name in any way, to make any representations or create any obligation or liability, expressed or implied, on behalf of the other Party, without the prior written consent of the other Party. Neither Party shall have, nor represent itself as having, any authority under the terms of this MoU to make agreements of any kind in the name of or binding upon the other Party, to pledge the other Party's credit, or to extend credit on behalf of the other Party.

First Party

Second Party

Any divergence or difference derived from the interpretation or application of the MoU shall be resolved by arbitration between the parties as per the Arbitration Act, 1996. The place of the arbitration shall be at Corporate Office of the Second Party.

This undertaking is to be construed in accordance with Indian Law with exclusive jurisdiction in the Courts of **Chennai**.
